Garland Sit-in

SGA recently passed two resolutions regarding the current Garland sit-in. The first resolution is against the creation of a JHU Police Department. Senators voted in favor of this resolution for a number of reasons, including the polling data of over 1,900 undergraduates that shows students are overwhelming against the creation of a JHUPD. The second resolution was in support of the current Garland sit-in.

The sit-in is a grassroots based act of civil disobedience that includes student representation from a number of groups, including Students Against Private Police and the Hopkins Coalition Against ICE. Currently, protesters have been in Garland Hall for over 150 hours. The demands of the coalition are as follows:

1. End the Private Police initiative and equitably invest in community driven initiatives for violence and poverty reduction.
2. End contracts with ICE and donate all profit to fund immigration defense.
3. Demand Justice for Tyrone West and victims of police brutality.

There is a demonstration tonight from 7PM to 9PM in Harriet Tubman Grove-Wyman Park Dell.
