

## **Update**

Location: gotomeeting

## **Present:**

- Daniel
- Bruce
- Seba
- 
- (pls add yourself if not in the list)

## **Agenda:**

1. SAMM v1.1 - followup
2. <https://github.com/qudosoft-labs/SAMMCharts>

## **Meeting notes:**

to be merged with updated minutes of Bart

## **SAMM v1.1 release**

Bart / Hugo working on new core model doc

## **Wiki update**

**action:** Seba to update wiki to v1.1  
contents depends on core model update.  
will ask hugo to create new badges  
*Update website still pending*

## **OpenSAMM Benchmark**

- Daniel will look into the completeness of the template, since some data items seem to be missing/unclear (e.g., scope, team size, ...)

## **other topics**

no news on Fall Summit

SAMM session on HP protect

SDLC cheat sheet updated with SAMM QSG!

update samm project page -

[https://www.owasp.org/index.php/OWASP\\_SAMM\\_Project#tab=Main](https://www.owasp.org/index.php/OWASP_SAMM_Project#tab=Main)

gather input for SAMMV2 + set scope
