

Amendment Form

This form should be utilized by all delegates when submitting an amendment to a draft resolution segment to the dais. If all sponsors agree to the amendment, the amendment is friendly, and the draft resolution is then automatically amended and the dais will inform the body of the change. If one or all of the sponsors do not agree to it, the amendment will be considered unfriendly and then must have the appropriate number of sponsors and/or signatories to be voted on by the body, equivalent to the number required for working papers to be submitted to the dais.

Please note: Preambular clauses cannot be amended. Grammatical changes do not require an amendment, please inform your dais should there be any such errors.

PROPOSED AMENDMENT:

[Replace this text with the text of the proposed amendment. Please begin the amendment with details regarding which clauses/lines are being amended].
