Remark

Tables

• Tables look best if all the cells are not bordered; place horizontal borders only under the legend, the column headings, and the bottom.

Figures

• Figures - should be submitted in color. The author must ensure that the figures are clear and understandable. Regardless of the application used, when electronic artworks are finalized, please 'save as' or convert the images to TIFF (or JPG) and separately send them to EnNRJ. The images require a resolution of at least 600 dpi (dots per inch). The labels of the figures and tables must be "Times New Roman," and their size needs to be adjusted to fit the figure without borderlines.

• Graph - The Font style in all graphs must be used Time New Romans and adjust the font size to 9-10, black color, avoid bold in the letters, and set the border width of the graphs to 0.75 pt.

- Graph from MS Excel: Please attach an editable graph from MS Excel and Please separately submit the MS Excel used to prepare these graphs to us for customize the beauty.

- Graph from another program: Regardless of the application used, when your electronic artwork is finalized, please 'save as' or convert the images to TIFF (or JPG) and separately send them to EnNRJ. The images require a resolution of at least 600 dpi (dots per inch). Do not directly cut and paste.

*All figures and tables should be embedded in the text and mentioned in the text.

Remark

References should be cited in the text by the surname of the author(s) and the year. This journal uses the author-date method of citation - the author's last name and date of publication are inserted in the text in the appropriate

place. If there are more than two authors, “et al.” must be added after the first author’s name. Examples: (Frits, 1976; Pandey and Shukla, 2003; Kungsuwas et al., 1996). If the author’s name is part of the sentence, only the date is placed in parentheses: “Frits (1976) argued that . . .”

*Please ensure that every reference cited in the text is also in the reference list (and vice versa).

*Please be note that manuscripts should usually contain at least 15 references and some of them must be up-to-date research articles.
