

Community Project - Cecaelia comic (24-27 Pages. Sci-fi only.)

Stage 1 - Project Idea

Species: Cecaelia/Octomaid TF
-
Gender: Female
-
Setting: Sci-Fi
-
Format: Comic (12-24 Pages)
-
NSFW: Some
-

Stage 2 - Planning

Method of transformation

- Parasite
 - Looking for host
 - Doctor applied
- Injection
 - Willing
 - Forced
- Drugging
 - Willing
 - Forced
- Radiation
 - Ship explosion
 - Solar wave
 - Nuclear Fallout
- Mechanical
 - Robotic limb surgery Willing.
 - Robotic limb surgery Forced.
- Planetary
 - Natural Planet toxins/infection.

Locations of transformation

- Out in the alien wilds
 - Infection
- Out in radioactive wilds
 - Nuclear Fallout
- Inside a lab/surgery

Community Project - Cecaelia comic (24-27 Pages. Sci-fi only.)

- Injection
- Drugging
- Mechanical
- On a ship.
 - Radiation
- Parasite
 - Anywhere.

NSFW Scene possibilities

- Tentacles being tentacles.
- Pervy co-worker/survivor.
- Overbearing doctor/perpetrator.
- Ovi

Traits the victim has.

- 8 suckered legs.
- Suction nips.
- Slippery skin
- Capable of oviposition

Plot points

- Waking up
- Introduction of characters
- Introduction of catalyst
- Victim trying to reject the catalyst, Perpetrator/event Using Catalyst.
- Victim's transformation
- Perpetrator advancement/ assessing the situation (Depending on Catalyst)
- NSFW
- Finishing full body shot of the victim.

Stage 3 - Refining

Plans

- Catalyst:
 - Injection
 - In the legs
 - Parasite
 - Force Fed through the breather.
- Location:
 - Spaceship
 - Testing facility focused on genetic reprogramming.

Community Project - Cecaelia comic (24-27 Pages. Sci-fi only.)

- Goal(s):
 - Create a lifeform capable of surviving the harsh conditions underneath the ocean.
 - Test Semi-Successful. Needs to be kept in 'captivity' for further 'studying'.
 - Test that reproduction is still functional and compatible with the human species.
 - Test proved successful via... personal encounter.
- Characters: 3
 - Doctor/ perpetrator.
 - Has a firm yet disturbing belief that the science comes first, morals and emotions second.
 - General/ head of research.
 - Cares about the money to be made off of the discovery if human expanse is capable into the oceans.
 - Victim.
 - Was a random homeless woman they took from the streets to turn into a lab rat, the people thought nobody would care about them and they were right.

Stage 4 - Page Planning

- Page 1. Getting a sense of the area.
- Page 2. Introduction of the victim
- Page 3. Introduction of the antagonist
- Page 4. Getting some answers as to why they're there.
- Page 5. Making demands to be set free.
- Page 6. Explanation why she's in no position to be released.
- Page 7. Breaking their will. Beginning the transformation process.
- Page 8. Process beginning. Force fed parasite.
- Page 9. Victim trying to stop the catalyst. And failing.
- Page 10. Victim feebly holds the air mask allowing them to breath and takes in the catalyst. Somewhat high state.
- Page 11. Visible changes underneath Victim's suit in their legs.
- Page 12. Stretching of leg clothing as it begins to tear, weird anatomy in legs. Small incision growing across their neck.
- Page 13. Bubbles come out of the incision indicating breath as their limbs are unleashed from the clothing still clinging to them.
- Page 14. Breather falls off. Character freaks out but seems to still be capable of breathing.
- Page 15. Overview of themselves, eye shift. Cringes in last panel.
- Page 16. A tentacle got stuck to the glass causing them to cringe at the sensitivity.
- Page 17. Conversation between victim and antagonist. "What now" being the topic.
- Page 18. Revealing the test for fertility.
- Page 19. Dildo-like tube makes its presence known. Victim tries to fight it.

Community Project - Cecaelia comic (24-27

Pages. Sci-fi only.)

- Page 20. Tentacles appear to have a mind of their own. Trying to 'eat' the thing but instead gives it better positioning to slide in.
- Page 21. Victim pleads, tentacles seem to be enjoying the sensation though and pulls more of it in.
- Page 22. Scissors cutting off the remainder of the suit. Her nips getting stuck to the glass.
- Page 23. General/Head of research comes in. Asking for the status report.
- Page 24. Doctor gives a quick summary. General asks about the pointless nudity.
- Page 25. A few scenes of the victim getting fucked. Responds with the fact it's just a personal touch for his own pleasure.
- Page 26. General doesn't agree with it but who's to stop the guy from enjoying himself.
- Page 27. Victim in a shallow pool laying eggs as, in computer dialogue, a report of the success of reproduction is written down on the sides.

Bonus stuff I could do if I felt like it.

- Single scenes that weren't involved.
 - Dildo cumming in them.
 - Fucking the doctor.
 - Tentacle masturbation.
