

8.03 Worksheet: Augmentation

Name: _____

Class: _____

Questions:

1. The first table below shows examples of tasks that AI can augment or that humans can still do. Use these examples to fill out the “How AI can augment it” and “What the human still does” columns in the second table, which has tasks for different jobs.

Chooses meaning, voice, originality of writing	Brainstorms, edits, suggests structure for books
Sketches mockups and chooses what works for real people	Helps read medical scans, summarise notes
Diagnoses, communicates, writes prescriptions	Generates website and app mock-ups and variations
Writes draft code, identifies bugs, explains errors	Design digital systems, checks for bugs, talks to clients

Job	How AI can augment it	What the human can still do
Doctor		
Writer		
Designer		
Programmer
