

Saying Thank You to our Essential Workers (K-8)

Purpose: Essential workers continue to do their jobs every day. There are many people who work hard to keep us going: nurses and doctors and hospital staff, of course!; delivery truck drivers; utilities employees; grocery store and pharmacy employees; police and firefighters; custodians and sanitation workers; public health officials and many many more.

Materials:

- Whatever you have available: paper, pens, markers, colored pencils, chalk, etc.

Directions:

1. Is there someone you know who is working hard to keep us going? Make a personal thank you card with your own drawing and message.
2. Create a public message to share your gratitude. Write a note to your postal carrier, make a poster that you put in your window, do a chalk drawing on the sidewalk in front of your house or come up with your own idea!
