info@santrelmedia.com

Hello Nate and Mike,

Saw that you have many website builders like Squarespace where you meant it's "an eazy #1". It's good to see that you have a highly rated website builder that can ensure this is the right choice.

I noticed that you want to reach a larger audience on social media to achieve significantly better results and gain greater profits.

You're not currently getting as much attention as you could.

I saw a way you could increase the attention you can get from Instagram, as well as YouTube and Facebook. So you can get many more people to visit your website, and you will receive the best possible turnover.

This month, I can only take on one client, so let me know if this would be something you're interested in or ignore this message and continue grabbing attention by yourself.

I saw a way you could increase the views on your videos and website visits so that you have the best possible turnovers.

Version 4

Hello Orberlo and Jessica,

Your video about "How to stay productive and stop procrastinating" and it's "good to know". The same as lead videos about E-commerce.

However, your reach isn't where it deserves to be, even though there was nothing wrong with your content.

It just wasn't getting all the attention it could.

I saw a way you could increase the views on your videos and website visits so that you have the best possible turnovers.

Would this be something you're interested in?

Hello Max,

As I looked through your website and IG, I noticed that you're fighting to get known to your potential clients.

I want to show you my one-bullet solution which will increase the number of companies that will want to collaborate with you.

Are you interested?
