PHOTO TO TIME

Think about **how you felt when** you opened an album.

As you turn the pages, **you see yourself smiling**,expecting the next chapter would surely bring back memories & experience.

Hearing the laughter and of the shared stories of everyone around you, makes you realize how valuable a captured moment is and **how precious life is.**

Lost Moments Forever..

Now think about the **moment that you missed**, a birthday, debut,a marriage etc.. that you have no memorabilia of.
