Pay rate & budget

Item	Detail
Rate	\$3.00 per 1,000 views (CPM)
Minimum to qualify	1,000 views per video. Each video needs 1K+ views to be paid out.
Maximum payout	\$600 per video (capped at 200,000 views)

Platform	TikTok only
Total campaign budget	\$7,500
Payment method	Whop

Payouts depend on the campaign budget left when your clip is approved. If the budget runs out before your submission is reviewed, payment isn't guaranteed, so post early.

03

Campaign rules

- **Platform:** TikTok only.
- **Format:** Native photo slideshows (not a video export).
- **Audience:** At least 50% of your audience must be in the U.S. You must include your demographic screenshot with every submission.
- **Language:** English only.
- **Dedicated page:** Use a page made just for Betting on the Wedding. Don't mix campaigns on one account.
- **Feature BOTW:** Every slideshow must include a Betting on the Wedding promo slide. Never make the app look bad in captions, slides or titles.
- **Approved content only:** Only post the formats and content we give you, unless we tell you otherwise.
- **No botting:** No bottled views, likes, comments or follows. Botted clips are rejected and can get you removed.
- **Original only:** No reposting, spam or low-quality slides.

The Syndicate Playbook

Everything below is taught for free inside the Discord. Open a ticket in the 1-on-1 channel and we'll personally take you through each step:

01

Set up a proxy

Betting on the Wedding needs a U.S. audience (50%+). A U.S. proxy makes TikTok treat your account as American from day one, so your posts get pushed to U.S. feeds.

02

Set up your accounts

A fresh account per campaign that looks like a real person in the niche: name, profile picture, bio. We walk you through it live.

03

Warm them up

Brand-new accounts that post straight away get 0 views. We show you the exact warm-up routine so the algorithm knows who you are before you post.

04

Make the content (AI images)

How to generate clean, realistic AI images that fit the format and don't look like cheap AI slop.

05

Build the promo slides

How to work Betting on the Wedding into the slideshow naturally so it reads like a recommendation, not an ad.

06

Make your content better

Send us your analytics. We break down what's working, what isn't, and what to change on the next post.

07

Vary it and go viral

How to spin one format into many different posts so you don't get flagged for duplicates, and keep hitting on every campaign.

New here? Don't try to figure this out alone. Join the Discord, head to the 1-on-1 channel and create a ticket. We'll set up your first account with you.

05

BOTW account setup

Set up your Betting on the Wedding page like this before your first post. The goal is for it to look like a real person into weddings and relationships, not a promo page.

Step	What to do
1. Account	Create a brand-new account on a U.S. proxy (see Playbook, step 1).
2. Niche	Weddings / relationships.
3. Username	Make it look like a real person, not a brand. Don't use the app name in it.
4. Profile picture	A real-looking photo that fits the niche. No app branding.
5. Bio	No required bio line for this campaign. Keep it natural and on-niche.
6. Warm-up	Warm up before posting, engaging only with wedding and relationship content so the algorithm learns your niche.

06

Formats vault

The proven formats for Betting on the Wedding. Open a guide, copy the structure, and make it your own. New formats drop in the Discord every day.

#	FORMAT	GUIDE
Format 01	The Wedding Carousel Happy-crying ring selfie hook, a six-beat camera-roll story and the betting game. Change the hook and the image on every post to keep one account going for months.	Open guide →

07

What works

- **Hook first.** Slide 1 decides everything. If it doesn't stop the scroll, nothing else matters.
- **Clean text.** Readable fonts and short lines that are easy to read on a phone at a glance.
- **Emotional angles.** Weddings run on feeling: drama, hot takes and "would you go?" moments. Relatable, debatable angles get shared and commented on.

08

Submit & get paid

Step	What to do
1. Post	Publish your slideshow on your dedicated BOTW page.
2. Submit	Hit "Submit clip" in the Content Rewards tab and drop your post link.
3. Prove your audience	Attach a demographic screenshot showing 50%+ U.S. viewers.
4. Get paid	Once approved, earnings are paid out through Whop.
