I have no interest in writing Lorenz outside of the world of Pokémon, so have a verse for that on your blog please.

Mun and muse are adults. Blog is multiship. Smut's OK.

I don't usually send passwords. If I follow you, you can trust I have given your pages a good look.

First a kid full of dreams, then a teenage delinquent turned eco-terrorist... Lorenz's path toward becoming a Pokémon Master has been more convoluted than one would think. Betraying those he once considered his friends for the sake of claiming a Legendary Pokémon's power as his own and becoming a hero left him to be shunned by all that ever knew him, including his own Pokémon. Only after a journey through his home region did he earn his eight badges the proper way and regain control of his fate.

GOLDEN SMILE & SILVER TEARS

よろこびと くやしさと

Growing up idolizing the trainers of the Indigo League, there was never any doubt in young Lorenz's mind that he would aim to become a Pokémon Master. However, he quickly found the task to be far beyond his ability, as he was, at age 10, unable to acquire the badge from his hometown's Gym and thus wasn't allowed to depart on his initiatory journey. Staying in the shadows of his more talented older siblings, the boy was pushed toward abandoning his dream. Years went by and his teenage years were marred by frustration that led him down a path of petty delinquency, much to his respectable middle-class family's dismay. One bullying incident too many led to him being expelled from his school, and forced into what he saw as a dead end job.

Lorenz's dull life eventually took quite a thrilling turn, when a nighttime ride in his mother's boat left him stranded in a storm, from which he was saved by Lugia, the god of the seas. This brief encounter that wiser men would have taken as an omen to turn their life around for the best, did not however have any sort of positive impact on him. Nobody in the neighborhood, his family included, believed someone like him could actually have encountered the Legendary Pokémon. The boy grew bitter, and to his fascination with the elusive beast was added the desire to prove anyone who had ever doubted him wrong, sending him on a mad quest to meet - *and catch* - a Legendary Pokémon for himself.

After an unsuccessful attempt at getting his adult life off on the right foot in Slateport City in Hoenn, Lorenz heard about Team Aqua, and their intention of awakening Kyogre, the one some call the Great Leviathan. He knew it took a crook to fool a crook, and he joined the organization with the goal of stealing Archie's target from under his nose and then reaping the glory that came with taking the entire organization down.

But his few years of preparation were not enough. The plan backfired. Hard. The friends he had made among his fellow members of Team Aqua, and even his own Pokémon, turned against him after his intentions were exposed. Friendless and with nowhere to go, he would spend the few months after the Weather Trio incident wandering the Hoenn region with no purpose to his life. That is, until a certain encounter triggered something of a wake up call within him. A reminiscence of why he wanted to become a Pokémon trainer to begin with. After returning to Johto and finally departing on the journey he was denied for so long, Lorenz made amends for himself, patched things up with some of his family and old friends, and finally became what one would call a proud Pokémon trainer.

# POKEMON

Spec | Lv.71 ♂

HYPNOSIS  
GIGA DRAIN  
SHADOW BALL  
DARK PULSE

Lorenz's partner since childhood. Like many Gengars, he is quite the prankster, though he can be a bit bashful. He is fluffier and smaller than the average Gengar.

He holds a Gengarite in his stomach.

Sulfur | Lv.70 ♂

ICE FANG  
SURF  
ROCK SMASH  
LIQUIDATION

An affectionate loudmouth for his trainer, but quite the unapproachable beast for anybody else. Lorenz received him as a Croconaw from Professor Elm. He tends to disregard orders when irritated. He is fatter than most Feraligatrs.

Paon | Lv.67 ♂

QUICK ATTACK  
TOXIC  
FEINT ATTACK  
SHADOW BALL

Originally a Eevee Lorenz caught on his journey through Johto. He likes chin scratches and will get aggressive when provoked, not unlike his trainer. He's not as unruly as Sulfur, but he isn't quite compliant outside of battles.

His Tera-type is Ghost.

Poussière | Lv.63 ♂

DAZZLING GLEAM  
SHADOW BALL  
CONFUSE RAY  
PAYBACK

Originally a Misdreavus Lorenz caught on his journey through Johto. He hasn't mastered Illusion moves as well as others of his species, but likes to use what he knows to surprise others. He's a bit of a diva.

Tar-Tar | Lv.65 ♂

FLY  
SILVER WIND  
HEAL BELL  
EXTRASENSORY

Originally a Togetic Lorenz received after trading his Sableye to a friend. While he originally wasn't a fighter, he finds the company of humans agreeable and acquired a competitive mind.

Lorenz's primary Ride Pokémon.

Stéphanie | Lv.59 ♂

POISON FANG  
DEFOG  
AIR SLASH  
CONFUSE RAY

The first Pokémon that Lorenz caught on his journey through Johto. Making him evolve to his third stage was a huge boost to his self-esteem. He is a bit hasty and gets distracted easily.

Teraxar | Lv.68 ♂

BRICK BREAK  
WILL'O'WISP  
HEX  
SHADOW PUNCH

Initially a Duskull from Mount Pyre. He followed Lorenz after taking a liking to him and was part of his team during his journey through Johto. Despite his eerie appearance, he is helpful to a fault and always feels sorry when he startles someone.

He is currently holding an Eviolite.

Kealohi | Lv.61 ♂

SHADOW BONE  
FLAME WHEEL  
HEADBUTT  
SWORDS DANCE

Adopted as a Cubone after his former trainer abandoned him. It took him a while to start trusting humans again, but he has gotten quite attached to Lorenz. He seems to live for a good fight.

(Catch)

Nephtys | Lv.60 ♀

OMINOUS WIND  
SHADOW CLAW  
IRON DEFENSE  
BODY PRESS

A Shiny Cofagrigus found by Lorenz and Adrian while they were exploring an old abandoned mansion. She can be extremely aggressive when angered. Lorenz still has trouble keeping her in check.

(Catch)

Castile | Lv.62 ♀

WATERFALL  
BREAKING SWIPE  
SMOKESCREEN  
FLASH CANNON

Caught as a Horsea on Route 41. While she remained boxed for a while, Lorenz found himself fond of her companionship. She is very proud and regal, which severely contrasts with her trainer and a lot of his companions.

(Catch)

Viscer | Lv.60 ♂

TOXIC  
FLATTER  
POISON JAB  
EARTHQUAKE

Also called "Guts" for short. This highly competitive Pokémon is alway seeking greater heights, and let himself get captured to pursue that goal.

He evolved with a Moon Stone Lorenz found in the Ruins of Alph on one of his jobs.

(Catch)

Valens | Lv.62 ♀

AXE KICK  
LUNGE  
ENDURE  
SUCKER PUNCH

The only survivor of a Nymble swarm that was decimated by Bombirdiers. She was distrustful of humans, but her desire to see what the world has to offer led her to find value in the companionship of a trainer.

Her Tera-type is Fighting.

(Catch)

Ziggy | Lv.9 ♂

SNARL  
LICK  
TACKLE

A gift from Adrian. He is playful and highly energetic, but has a tendency of unleashing this energy at inappropriate times. He doesn't seem interested in battling. While Lorenz's Ghosts are a bit afraid of him, he gets along really well with Clary and Teraxar. Jay came up with his name.

(Catch)

Cowak | Lv.16 ♂

CONFUSION  
FURY SWIPES  
WATER GUN  
RAIN DANCE

A strange Pokémon Lorenz doesn't remember even catching, but whose companionship was pleasant enough to keep. He was among the old Pokémon Lorenz released after he left Team Aqua, but the little bugger found his way back to him anyway.

Clary | Lv.12 ♀

LICK  
CONFUSE RAY  
SPITE

One of two Gastlies that haunted the attic of Lorenz's parents home. She is more of a social butterfly than her sister and gets along well with other Pokémon, though she isn't as good in battle. She and Patchouli were both named by Adrian, whom they are very fond of.

Patchouli | Lv.30 ♀

POISON JAB  
CONFUSE RAY  
MEAN LOOK  
SHADOW CLAW

One of two Gastlies that haunted the attic of Lorenz's parents' home. She treats Teraxar like he's her mama but seems rather fearful or aggressive toward other Ghosts. Unlike Clary, she is very fond of battling and evolved early as a result.

Zani | Lv.44 ♀

MIMIC  
LIGHT SCREEN  
THIEF  
PSYCHIC

This Mr. Mime was taken in by Lorenz after she lost her former trainer. She gets along splendidly with other Pokémon and is also an excellent contortionist. She is noticeably taller than other Mr. Mimes.

(Catch)

Mercure | Lv.10 ♂

TELEPORT  
TAUNT  
REST  
FLASH

While unevolved, this Abra's grizzled looks betray that he is far older than most of Lorenz's other Pokémon, and potentially even older than Lorenz himself. He has a bit of a mean streak but he does act brotherly toward Ziggy and Patchouli. Lorenz never actually captured him, but Mercure stuck with him against his consent.

(Catch?!?)

Momoi | Lv.88 ♂

NASTY PLOT  
MALIGNANT CHAIN  
RECOVER  
HEX

A mysterious Pokémon encountered in Kitakami. While he originally tried to control Lorenz, he was stricken by the mercy he was shown and decided to stick around with him, though he occasionally disappears for long periods of time...

#### FORMER POKEMON (Released / Traded Away)

Pingo (Empoleon) – Lorenz’s very first Pokémon, whom he received from his Sinnohan uncle as an egg. Feeling betrayed by Lorenz and his mad ambitions, Pingo turned against him at the climax of his plan to steal Kyogre for himself. He has since then never been seen again.

Amru (Sableye) – Another Pokémon Lorenz caught during his time in Hoenn, and one of the three who returned to him after being released. Lorenz traded him away for an acquaintance’s Togetic, trusting he would be taken good care of.

Demy (Mightyena), Solis (Starmie), Karmin (Cranidos), Ballie (Sealeo) – Pokémon Lorenz had during his time in Team Aqua. Demy, Ballie and Solis have chosen some of Lorenz’s former Team Aqua colleagues as their new trainers while Karmin apparently returned to the wild.
