

Play it Forward is an NGO based in southern Zambia, Africa. It provides opportunities for the youth of Zambia using education and sport, especially football/soccer as the medium.

We - my husband and I and 3 boys, Fergus (team grey), Felix (team Portugal) and Rory (team purple) - happened to be in Livingston, Zambia, last year, and our few days coincided with the boys U12 football tournament. Fergus, Felix and Rory were invited to join in. It was an incredible experience, watching our boys and the Play it Forward team play a whole morning of games on pretty much dirt pitches with the African sun beating down on them.

Play it Forward would dearly love for us to help them to continue their life changing work. One of the easiest ways for us to assist them is to provide kit for the players, tops, cleats, shin guards and the like. Cambridge Youth Soccer has agreed to support Play it Forward. In the first instance we are having CYS/Play it Forward Zambian jerseys made to send out to the players. Each top will cost \$18. We aim to send 50 tops in the first instance. Any contributions towards this would be most welcome.

Also, if families have any cleats/shin guards that they have grown out of and would like to donate, we would really appreciate it.

My venmo is - @Alice-Murray-7
