Children at the Border

by: Anthony Graf

There has been a recent climb in the amount of illegal immigration amount. A lot of the new immigrants are under the age of 18, traveling without their families. Currently there are about 1,100 children being housed at an air force base at the Lackland Air-Force Base. It is estimated that there are between 300 and 400 kids entering the country every night. Most without parents and some with their parents not knowing where their kids are. This number has skyrocketed over the past year. In 2012 the number of illegal immigrants was at 13,625, and now, the number has gone up to 24,000. These extremely high numbers push president Obama to fix the immigration crisis. This issue has become political due to the president and Republicans not being able to decide on what should be done. President Obama is blaming congress on the weak immigration reform, yet nothing at the time is being done to even help stop the mass numbers of people from crossing over. There are assumptions that the White House will request an extra $2 billion in funding for border patrol, but nothing has been done yet. President Obama has said that they will try to focus on deportations for high risk immigrants, but failed to comment on deportations for all illegals.

These are captured illegal immigrants being held at Lackland Air-Force Base in San Antonio, Texas.

Israeli Drone Strike on Hamas Instillation

Another Striking Blow From Israel

by: Gabriel Cohen

For over the past decade, Israel and Hamas (Terrorist Organization) have been fighting to preserve their borders, but over the last week tensions had reached its peak after the Hamas killing of three Israeli teenagers and the revenge killing of a Palestinian teenager. The incident escalated from rioting and public killings to a potentially full out war. After Hamas stated that it has expanded its arsenal and prepared to use its full potential on Israel; they have fired 1,000 Surface to Air missiles into Israel. Hamas has also been using drones in their attacks against Israel. Over the past week alone Israel has been carrying operation "Protection Edge" (Israeli Defence Force), which includes the deadly drone strikes over Gaza. Currently there are reports of 189 people killed and 1,100 injured from these attacks. Civilians were warned before the attacks. Some Israeli officials have stated that the attacks on Gaza are meant for Hamas instillations, and the plan for the use of troops to invade Gaza is still in effect. There haven't been any big pushes for peace talks on either side, but one thing is certain, the fighting will continue.

U.S Marshal Top Most Wanted

by: Yvette Diaz

Shane Miller is top most wanted in the U.S Marshal list for killing his wife and his two daughters. Shane Miller who is a resident of Shingletown, California . Spotlight in Mexico , Canada and all over the United to alert everybody that this guy is out there. This all started on May 3 ,2013 when Shane killed his wife Sandy, 34, and his two daughters Shasta, 4, and Shelby, 8,,.According to One Safe Place Sandy who is Shane's wife went there to seek for help for her and her girls. They also say that Sandy might of been tricked by Shane to her murder and her daughters murder.

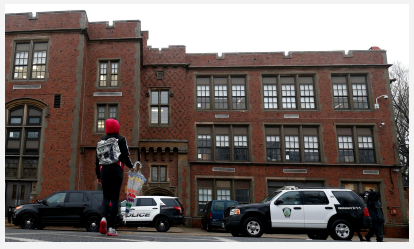

Shane Miller

A Prank Gone Wrong

by: Serena Baluyut

What started off a simple prank, turned out to be far worse for 63 students. 39 of them were charged as juveniles and 24 of them who were charged with burglary and criminal mischief at Teaneck High School. After the students threw food everywhere, smeared vaseline on the doors, moved furniture of the hallway, and drew graffiti everywhere they were arrested and charged. Teaneck High School hasn't publicly announced how the students that were involved were punished, but some students say that they were suspended for four days. Parents are outraged by the overreaction from the law.

Grieving mother and sister of 12 year old Genesis Rincon.

Rincon's Little Story

by: Kenia Williams

It only took a single bullet to wake up a community from the slumber of realizing the evil doing in the Fourth Ward. July 5th the Rincon family lost a beautiful princess. 12 year old Genesis Rincon was shot in the head by what was said to be a stray bullet.

Rosa Parks Boulevard in Paterson, New Jersey was the place where it all went down. The crazy gun war was'nt necessarily meant for the young eighth grader; however, 19 year old Jhymiere Moore is going to suffer the consequences. Charged with first degree murder it looks like the friends and family of Moore won't be seeing him for a long time. Later on in the investigation both Jeffery Ellerbee (21) and Marshae Anthoney (19), whom was also apart of the gun spray down the boulevard strip that tragic night.

Day by day the family tries to show Paterson that the violence needs to stop by using their own story. Friends, family, and even strangers attended Genesis Rincon's funeral at the Community Baptist Church of Love in Paterson. Touched by her story of that day when she was being like any other child riding a scooter at the time she got caught in the crazy cross fire. Being strong while saying their final goodbyes to the little angel who wore a tiara and had flowers all around her .

Fifa World Cup 2014 Rio de janeiro, Brazil

by: Martin Almonte

The Fifa World Cup one the most watched events all over the world was over on july 13. many people were going for Brazil which was the the home for the World Cup it was a very impressive year for this event as always many people assisted and many fans shouting for their teams. One of the favorite team was Colombia because they hadn't been to the World Cup in 16 year they missed 4 years straight and for Colombians this was a big deal. This years World Cup was very intense many teams that people didn't expect to do good did great and the ones that were more expected to do great didn't do as well. But for the Brazilian team it was very devastated they had a very bad loss against Germany in the semi-finals after losing their star player Neymar Jr. in the recent game against colombia which many Colombians say the "Brazilian team bought the ref and he called many bad plays" says Colombian fans. At the end of this matter for the finals it was Germany and Argentina who had met in the 2010 world cup when Argentina lost to Germany 4-0 but this year it wasn't anything different Germany again came victorious in overtime 1-0

NBA Free Agency frenzy

by: Raymond Leon

Lebron James in a Cavaliers Jersey before a game.

After The 2013-2014 season had ended, the NBA had plenty of free agents that were looking to sign or re-sign with a team. Stars including Carmelo Anthony, Pau Gasol, Paul Pierce, Chris Bosh, Luol Deng and Lebron James all were free agents after the season ended and all have found a team to play for in the upcoming season. Paul Pierce, Pau Gasol and Luol Deng all have found new teams to play for. Pierce and the wizards ,Gasol and the Bulls ,Deng and the heat have all reached agreements for a certain number of years on their respective rosters.One of the most surprising changes in the NBA is the choice LeBron James made to leave Miami and return home and play for the Cleveland Cavaliers. The announcement of his departure shook the league. James has hinted at it but never in a million years would we have thought he would leave the team that took him to a championship back to back. Carmelo Anthony was also another player who people were waiting for his decision. For weeks he would attend meetings to view his options but this caused a lot of speculation that teams began to photoshop Carmelo in their team jersey and put the picture on the arena screen. Anthony ultimately stayed in New York for more than 122 million.With Carmelo staying on the knicks i personally do not think the knicks will be a threat to any team in the league. The same goes for the Heat. They have lost their star player and now only rely on Chris Bosh, D.Wade and now LeBron James replacement Luol Deng. The Future does not look too bright for the Heat. As for the Cavs, with LeBron at Small Forward, Kyrie Irving at Point

	Guard the Cavs are looking like a big threat in the league. After all the signings and trades this up and coming season should be an exciting one to watch.

BASEBALL

by: AMANDA Finish

The World Series is a mystery to everyone. Questions wander around asking "who will make it to the World Series" If you look at the rankings the top two teams are the oakland athletic at a record 59 - 36 at t number one ranking. At number two the Los Angeles Angels 57 - 37 . The following teams are the Tigers, Dodgers , and Cardinals. Now so far for the best players are Mike Trout from the Los Angeles Angels on the top one ranking. Following Andrew McCutten (PIT) at number two. At number three Ginarcarlo Stanton at number three(MIA). These layers gave it there all this year, and well for the world series we are just going to have to sit back and watch on what teams will make it.

ISIS terrorists

ISIS

by: Fred Harakandi

Iraq descends. As the days progress, the country is cracking at the inability of their President Nouri Maliki to control the territory. Management, despite being re-elected in the last election has not contributed to national development. Expert Explains The Institute Félix Arteaga Cano, has been unable to raise the rent, the standard of living of citizens, nor articulate a sense of national identity. Precisely one without Maliki Iraq is one of the possible scenarios for resolving the crisis.

"It's an opportunity to say that Maliki is to blame. Do not give the money not engaging the communities in oil extraction and feed Kurdish separatism, "explains the expert. Remember that among the errors that Maliki is quenched protests by force, a situation that "given the opportunity to jihadists to capitalize the Sunni insurgency."

Second scenario through the stalemate in the conflict would lead to "segregation". In this sense, the Kurdistan get independence, to the north and Sunnis in the south would be unleashed by the struggle to replace Maliki. The third scenario posed by the expert is "conspiracy against the insurgents." It provides an international alliance against the jihadists. Who are the insurgents? Since the crisis erupted in Iraq, the ISIS has led to the Sunni insurgency "They are the most aggressive"; explains the expert adds that they are not alone. "His biggest advantage is his military experience and the existence of Sunnis from acting with impunity sanctuaries" he says.

Was also joined their fight other militias and local Councils, former Baathists and other militias as Sons of Iraq and Awakening. Across the battlefield are the security forces of Iraq, tens of thousands of fighters from Baghdad and Kurdish peshmerga.

Oculus Rift

By: Jason Rodriguez

The Oculus Rift is a new virtual reailty headset that lets players step inside their favorite games and virtual worlds. The Rift uses tracking technology to provide ultra- latency 360 head tracking, allowing you to look around the virtual world just as you would in real life. Every subtle movement of your head is tracked in real time creating a natural and awesome experience. Its a headset that looks like goggles that are set in front of your eye which covers all your vision and you only see the virtual game.The rift is a new gaming goggle that is a next-gen gaming virtual reality system. This gaming device allows you to feel like you're in the game allowing you to fly, run, race, etc. This device has an external positional-tracking accessory, which helps track head movements more accurately. The result in this is that you are looking at a 3D world. The oculus rift only cost $350. The Oculus Rift is made with the best technology out there. The Oculus will be coming soon to your local stores in late 2014. The screen is HD which is at least 1080p making your virtual gaming experience even better. Don't forget to pre-order this next gen gaming system with a low price of $350.

Update on Boko Haram

by: Edgar Orosco

Abubakar Shekau confesses to bombing at Lagos

Boko Haram leader Abubakar Shekau has claimed responsibility for two explosions on June 25 at a fuel depot in Lagos. Shekau said that he ordered the bomb to be detonated at Lagos and therefore he is responsible for the bombing. The target of the Lagos bombs was a fuel depot. Had it gone up it could have caused a massive chain explosion and disrupted Nigeria's mostly imported fuel supply. Shekau also claimed a bomb in a shopping mall in Abuja's upmarket Wuse II district that killed 24 people and this was the third in the capital since April. Security sources say it may have been the work of a group or individual inspired by Boko Haram, and point out that its failure to hit its target makes it unlikely this was an expertly trained bomber. Shekau has been known to claim attacks suspected to be the work of another Islamist group or a criminal gang. Shekau says that although they may fool people into thinking that it was a fire it was in fact him and along with him Allah knows the truth as well. This raises many concerns and causes panic for some people.

EDM: A new twist on old music

by: Will Roman

For some time now the EDM label has begun to resonate in all realms as if the great hope of electronics is Involved, but what is the EDM and what does it mean for electronic music?

For some time this is only a part, EDM has begun to surround covers Specialized in many areas. A trend turned into a culture, opposed by many, according to electronic music enthusiasts, the very essence of traditional electronic music. Is EDM a threat to electronic music? Is EDM distorting a musical style and consecrating it?Is EDM a music genre in itself?

What is the Electronic Dance Music, or EDM as its known as.

EDM or Electronic Dance Music is not a genre in itself, even though there are artist such as Skrillex, Steve Aoki and David Guetta who call this a genre of music. You will not find it on any online store or in number of issued magazines under the sign EDM. EDM is a genre in itself by mixing several different styles and sounds to create different products valid for all public sources. EDM is a mix Between house, hip-hop, nu-rave and even dubstep.

Hyperglow: a type of rave for teens.

Big Wake

The Back In 2000 greatest hits and throwbacks

Article 14

by: Massiel Batista

Throwback music from 2000. Around that time there was a lot of good artists that came out like Christina Aguilera, Justin Timberlake, nelly, ext. in 2000 usher hit the charts at number 2 and in 2004 he released his album confessions that sold more than 2 million copies. In 2000 Beyonce was one of the top female artists. She had at least 4 singles on the top 100 charts She was also in a group called destiny's child, and they were also a big hit in 2000

Small Bands, Louds Sounds

by: Andre Broomes

Big Wake is a small band making big noise out of New Brunswick New Jersey. If you like complex music with that classic rock feel to it, well this is your band. With their debut self titled album 'Big Wake' you get a bit of everything thrown in a hour album of local gold. WIth touches of jazz, improvisation, indie, hard rock grooves, guitar shredding, and drum corps, make this album really stand out. This is only half of what this band offers. Big Wake is made up of Gerry Rosenthal (guitarist/vocalist), Henry Rosenthal(keyboardist/vocalists), Marty O'Kane(bassist/vocalist), and last but not least Jeff Fernandes(drummer/vocalists). With their chemistry playing music together that put on a unforgettable show with uplifting rocking tunes that will get the audience off their seats singing along. With small bands a lot of the time they come out with albums that doesn't capture what they do live but this band captures it perfectly. The album starts off almost immediately setting the tone for the rest of the album. Big Wake starts off with their song Mind Works which creates a warm nostalgic feel to their debut. The album progressively becomes more complex as it goes on with guitar overlays in odd places and complex multi layered rhythms. This band shows that bands can take that live atmosphere and put into their albums to make a more energy filled album. Their playing 6/15/14 at the Northen Soul Bar, and again on 9/5/14 in New Brunswick at the venue Old Bay. I strongly advise going out and seeing this small up and coming band make a lot of noise.

Big Wake's Debut Album- Big Wake

until she decided it would be better for her to go solo. Someone that has been out for a really long time and has done so much is Jay-Z also known as Beyonce's husband and baby father. He was on the top 10 14 times but didn't make it to the top 100 list until 2009. Together him and beyonce have done a lot of music and they are the biggest in the music industry today. They were a lot of good artists and a lot of top hits in 2000 some that we all still listen to thats why they're called throwbacks.

IPhone 6 Rumors

by: Gabrielle Rodriguez

Image of how the IPhone 6 is expected to look long ike.

The 4.7in iphone 6 is expected to be release around September 2014 but there has been disagreement to when the 5.5in one is to be released. The larger 5.5-inch iPhone could launch alongside the 4.7in version, or at a later date but no one knows for sure. Both the 4.7in and 5.5in iPhones will have an increased resolution due to their larger screens, possibly at 1704 x 906, a pixel-tripled resolution that would give the 4.7-inch model a pixel density of 416 and the 5.5in version a pixel density of 365. Along with a larger screen, the iPhone 6 may have a durable sapphire display in at least some models. The larger 5.5in iPhone 6 might also incorporate Optical Image Stabilization as a differentiating feature from the 4.7in iPhone 6. It is also possible that the larger iPhone 6 will be the only model with a 128GB storage capacity. Also recent mockups have suggested the iPhone 6 will be considerably thinner than the current iPhone 5s, possibly between 6mm and 7mm.

What is the Google Glass?

by: Matthew DelRosario

Image of the Google Glass.

What is the google glass? There are many rumors and speculations as to how it's going to work. The truth is, that google glass is a wearable computer with an optical head-mounted display. (Glasses) This seems like a really cool and interesting gadget, but with good looks comes a big price. The google glass was sold for a short time for $1500, But later was released for the public on May 15, 2014 for the same price. Google glass's features are unbelieveable. It includes a camera, that can take photos and videos at 720p HD Video. It also includes a touchpad that is located on the side of the google glass, Allowing users to control the device. It has an LED illuminated display so even in the sun you can see the screen just fine. Google glass will also have many apps, some built by third-party developers, as well as already built google applications such as google now, google drive and google+. Google glass is already receiving awards. In November 2012, Glass Received recognition by Time Magazine as one of the "Best Inventions of the Year" alongside with the curiosity rover. You may be asking what about privacy? well.... there is a controversy that google glass would violate security problems and privacy rights. Would you know if someone is taking a picture of you? The answer is yes. The user needs to move their finger on the side of the glasses and press a button.

	Some stores and movie theaters have a no google glass policy.
