I want to participate in TOOL Boostcamp 3 because...

- What is your motivation? (Around 200 words)

After I return from the event I will...

- What are your future plans?
- How will you contribute to your branch and in general to EESTEC?
- Why do you believe this event is beneficial for you and your branch?

My vision of the ideal TOOL Boostcamp is...

- What are your expectations for the event?
- How do you imagine this event to be and what impact will this have to you, to the other participants and to EESTEC in general?

Until now I have experience in...

- In which teams/Organizing Committees have you taken part in the past (both in EESTEC and in general)?
- In which teams/Organizing Committees are you taking part at the moment?
