- It's got alien ghosts? Florica got possessed by ghost worms.
- Divided into planetary allocations by whatever galactic government this universe has.
- The docks area is a communal area for relaxation.

Quick breakdown of who met who last round:

Anila - meets Visindi Himself (he warns her to stay away from Obscura and Desolo), before basically falling onto Arokht. They hang out and meet Sonora+Rachel

Arokht - joins forces with Frigidus' followers, Anila drops in, the two fight some Raxis jerks then meet Sonora+Rachel

Amaranth - flees Ceraceran pursuers with Chaete

Robin - meets Zoo, possesses Florica

Rachel - met Obscura's underlings, roasts them, meets Sonora then runs into Arokht+Anila

Sonora - eats a bunch of Kedemonas' minions, takes an unfortunate interest in Rachel

Florica - possessed by Inderigan High Priest Scinda, then Robin
