Subject: Report to the School Board

Dear School Board:

Technology Department submits the following report

Old Building Sites of Peake and Perritt

Louisa E. Perritt Primary School is now closed. The camera system is still working, but all other Technology has been removed. The Technology Department has moved that site to inactive status, with all major mapping services (Google and Apple) references showing the status as such.

Old (Peake\Goza) has a new name in the system as **Arkadelphia Public Schools Support Service Center**. I am (in the process of) ensuring that 911 will go to the right Peake Elementary School at 1609 Pine Street.

Arkadelphia Public Schools Support Service Center (SSC for short) is the location of the Special Education office, Custodial Services, and the rest.

Peake Elementary School

No longer known as the future/New Peake, Peake Elementary School has returned to its original location of 1609 Pine Street. All phone and intercom systems are in place, and a new heating and air computer has been installed in the second-floor network room. Goza and Peake's heating and air controls are now independent.

District Wide

The internal phone system is undergoing change at this time. 911 numbers are being changed, and some personal internal phone numbers have changed. This is currently a work in progress.

Sincerely,

Joey Andrews – Technology Coordinator
