

Treekeepers VR Privacy Policy

What information do we collect?

The only information collected in Treekeepers VR is that of online play session metadata. This is to aggregate info about how much our application is being used, and in what regions, primarily for server cost purposes. It does not include any personally identifiable information.

We do not store any data pertaining to voice or text chat through the application.

How do we use the information?

We only use this information to view usage statistics for our app, and for server costing.

What information do we share?

We never share your information with others.
