

## Raag – Tilak Kamod

**That** - Khamaj, **Vadi** - Re **Samvadi** - P, **Time:** 2nd quarter of Night

All notes shudh. Dha is not used in Aroh. Shadav - Sampporna. both Ni are used.  
some use only shudh Ni

**Aaroh:** Sa Re Ga Sa, Re Ma Pa Dha Ma Pa  $\text{Sa}^{\circ}$   
 $S, P \text{ } \textcircled{N} \text{ } S \text{ } R \text{ } G \text{ } S, R \text{ } M \text{ } P \text{ } N \text{ } S^{\circ}$

**Avroh:**  $\text{Sa}^{\circ}$  Pa Dha Ma Ga Sa Re Ga Sa Ni

**Pakad:** Pa Ni Sa Re Ga Sa, Re Pa Ma Ga, Sa Ni Sa

The descent progresses in a peculiar manner; instead of returning to Sa, it tends to go into the lower octave with a pause on natural Ni, as in  $S \backslash P \text{ } D \text{ } M \text{ } G, S \text{ } R \text{ } G \text{ } S \text{ } N$  and then concludes like  $P \text{ } \textcircled{N} \text{ } S \text{ } R \text{ } G \text{ } \backslash S$ .

P D M G and R G S N are complementary phrases.

Most phrases in this *rag* move in a oblique manner. Ga and Dha are omitted in direct ascent and S R M P /S with a glide between Pa and Sa, is highly characteristic of Tilak kamod.

Similarly,  $S \backslash P \text{ } D \text{ } M \text{ } G$  is a characteristic descent. Ga and Ni are important notes.

**Alaap:**

$S, P \text{ } \textcircled{N} \text{ } S \text{ } R \text{ } G \text{ } (R) \text{ } S, P \text{ } M \text{ } G, S \text{ } R \text{ } G, S \text{ } N, S,$

$S, R \text{ } G \text{ } S, S \text{ } R \text{ } M \text{ } G, S \text{ } N, P \text{ } \textcircled{N} \text{ } S$

$S \text{ } R \text{ } P \text{ } M \text{ } G, R \text{ } G \text{ } R \text{ } P \text{ } M \text{ } G, S \text{ } R \text{ } G \text{ } S \text{ } N, P \text{ } \textcircled{N} \text{ } S \text{ } R \text{ } G \text{ } (R) \text{ } S$

$R \text{ } M \text{ } P \text{ } D \text{ } M \text{ } G, M \text{ } P \text{ } N \text{ } S^{\circ}, S^{\circ}, P \text{ } D \text{ } M \text{ } G, S \text{ } R \text{ } G \text{ } S \text{ } N, P \text{ } \textcircled{N} \text{ } S \text{ } R \text{ } G \text{ } (R) \text{ } S$

**Some characteristic phrases:**

**S R M P /S**

**P N S R G \S**

**S R P M G**

**S \P D M G**

**S R G S N.**

*Rag Des has some similarities with Tilak kamod, especially when Tilak Kamod also includes flat Ni. However a **proper emphasis on Ga instead of Re** and the above phraseology can help maintain the character of Tilak kamod.*

### **Difference between Tilak Kamod and Des**

The essence of Tilak Kamod's poorvanga is encapsulated in the following tonal sentence:

P<sub>o</sub>N<sub>o</sub>S R G S N<sub>o</sub>, S R P M G, S R G S N<sub>o</sub>...

The nyasa on mandra nishad is a key lakshana. Take stock of the relative weight accorded shuddha gandhar here vis-à-vis Des. The rishab is now relegated from the powerful station it occupied in Des.

The uttaranga markers are embedded in the next cluster:

S R M P N S°, S°->P, D M G, S R G S N...

The arohi launch is Des-like but the nishad is rarely elongated. The swoop from S°->P is characteristic of Tilak Kamod. Oftentimes the shuddha nishad is skipped in aroha as in M P S°. Attention is also drawn to a mild Khamaj chhaya via D M G. The departure from Des ought to be abundantly clear at this point.
