NOV/09/2018  
CHARACTER HIGHLIGHT:  
**MUNAETH!**

By TC, Sera, Mr-Pink, KampferWolf, CATHulu, Roy & ImpXimon

**\*growf!\***

Soooo... we got our first snow in London, ON this week - yuck. And just like every other year, for SOME reason, everyone always forgets how to drive in it that first time. What is normally a 6 minute drive from work to home took 54 minutes the other night thanks to all the accidents. People seem to just not understand Newton's Laws of Motion when it comes to reduced traction. That and EVERY vehicle I saw that was in an accident did *not* have winter tires. So....

Pro-tip for any first time car-owners who live close enough to the poles of the planet to experience snow - GET SNOW TIRES. Yes, it costs more, but trust me, they make a *world* of difference when it comes to traction. They are tires made from very different rubber compounds that stay soft in the cold, and have treads and traction aids designed specifically to offer more grip on snow and slushy conditions. If you are in a place where the temperature consistently drops below 7°C at any time of the year, even if there's little to no snow, you really should consider them. Want proof? This really shows the profound difference: <https://www.youtube.com/watch?v=EC1E2eDt1JY>

From having experienced summer vs. winter tires on snow in every vehicle I've ever owned... trust me, those results are accurate. Anyway! on with the post!

***“Obedience training”*** by [ThaisMotosuwa](#)  
(C4 -- sfw-ish -- f | m -- wolf, thylacine -- foot-worship)

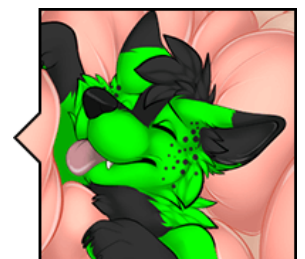

Aww... I love this! Alst showing one of several "acceptable" methods of being an obedient foot-lover. What really works all the more is how she's resting her hand on the thylacine's footpaw too - simple but lovely reinforcement. To get to have one's snout shoved into Alst's sexy toes would be a dream come true for many - and I like that Alst always has that "dominant" sort of feel to her. She would be very fun to get to do this sort of thing with.

## Mr-Pink's Random Music Pick

[Idealism - “Tsuyu” - 2017](#)

Loving this rainy day stuff.

## [Hadouken! - "Mecha Love" -- 2010](#)

I love the pure energy and intensity of this song - how it builds, breaks, rises and falls. Lots of great synth, beats and vocals! Sorta a mix of dance, techno, and a hint of hip-hop.

## Open for Sales/Commissions

**NOTE:** Just because an artist is not marked with "paw-friendly" doesn't mean they don't draw paws - just that I'm not sure if it's a theme they do a lot. ### Character Summary

Mynaeth's story is simple enough. She's a godly entity who's as old as time itself. Being multi-dimensional in size, she sought refuge in a pocket dimension of her own. Over the span of time she's refined her magic, using it to manipulate micros and entire dimensions as nothing more than snacks and playthings. Needless to say, no one knows for sure what this cosmic feline looks like, for those who have seen her have never returned to their old lives.

## Some Q&A

(TC) \*After moving to a much "larger" outdoor location for the trans dimensional cat, a towering Mynaeth shows up in all her beautiful glory, dressed in her usual witch outfit\* Welcome Mynaeth! Have a seat in my handy macro-sized guest chair (sure is nice to have some macro friends for these occasions). Thanks for taking the time to come chat with me. \*Stares waaaaaay up at her\* So...do you just...sorta choose at will which dimension or universe to pop up in...however that works?

(Mynaeth) \*The lavender-furred feline stretches her arms apart as she wanders through a dimensional rift of sorts,

promptly stepping through it as it vanished in the blink of an eye afterward. The towering witch stares down at her interview, mischievous grin plastered on her face prior to taking a seat and splaying her stocking-clad toes apart.\* Well thank you for having me, it's not often that a handsome dragon like yourself wants to have me around~ \*she chuckles, yawning quietly once settled in her size-tailored seat.\* Yes, I do, in fact. I suppose you could say that my magical expertise lies in the powers of time and space~

(TC) \*Widens eyes as she sits, putting the huge boots aside, from which the heat of wearing them makes a steam in the cool night air - as she splays her huge toes, the awesome scent of their natural musk fills the evening air about them. \*Nnnnngghhhhh...gghhff... ooookay... uhhh... must... focus... \*grits teeth\* Sooo... magic... space time... uhm... what do you usually use that power for?

(Mynaleth) \*Smirks wide as she begins to notice the very presence of her paws having an effect on the diminutive-by-comparison dragon, as they've had on countless others in the past. She takes it upon herself to keep those massive digits splayed, wiggling excitedly as the fragrant air of her musk wafts humidity in the cool air.\* My oh my~ I see that my presence has an effect on you as well, I'll be sure to keep that in mind~ As for the use of my powers... it's quite simple! ~ I find myself living in a self-made pocket dimension, seeing as my natural size could effortlessly destroy life as you all know it. It gets lonely at times... so I adore plucking helpless and clueless little cuties like yourself to do my bidding and keep me company~

(TC) NNnf... well to be honest, uh... paws generally have this effect on me. \*Grins sheepishly, cheek-fur puffing a bit\* It's uh... harder not to notice at your size. OH, and uh, dragon-dog, actually - I'm a hybrid. Hmm... so that's why you pluck people to come join you. Interesting. Now um... I think it goes without saying that we should probably talk about those big and beautiful feet of yours since I'm having a real hard time thinking of anything else at the moment. \*Looks at the giant pretty toes\*

(Mynaleth) \*Hums contently as she playfully glides those steamy paws along the ground, encroaching on the hybrid as his sights were set on them. Those pristine toes continue to wiggle themselves to and fro once settled, the scent becoming all-encompassing.\* I'm very proud of my paws, I take very good care of them~ I'm a dancer and a gymnast as well, so I suppose you could say there's a little extra strength behind them than you'd expect~ \*she taunts playfully, setting her hands on her land as she leans over to loom over him with a tongue poking out cheekily from that maw of hers.\*

Do I like having people enjoy and worship my paws? No... I adore it!~ Having micros throw themselves at my feet time and time again is never a dull moment, they treat my footpaws like they're deities in themselves and I embrace every second of it~

(TC) \*Gulps and stares at them, feeling quite light-headed\* Uhhhhh yeaaaah, I can very much see how they might think that. Ohhh... gymnast and dancing? Now that's neat! Is that a hobby or passion outside of the witchcraft?

(Mynaleth) \*Merely chuckles in response to his reaction, keeping those lovely toes splayed apart as the steam which wafts freely from there in the chilly air fills the area in its delightful, musky scent.\* Very much so~ I've been practicing gymnastics and dancing since I was a kitten, though one thing hasn't changed since then and now... My favourite time to perform either are when I either have micros in my socks or shoes... or when there are plenty of micros scattered over the floor~

(TC) I've seen that... seems that when with you, they cannot be harmed. In fact, quite a few seem to be um... quite happy about it. I mean... I totally get why. Ahem. So worship of your big feet is a really enjoyable thing for you. When did you first discover that people loved your footpaws? Was there a sort of ... "ah ha" moment?

(Mynaleth) You're so sweet, I'm glad that you're self-aware of how delightful my paws and I are~ \*she chimes as proud and smug as ever, keeping her steamy paws near the dragon-dog hybrid whilst wiggling her toes enticingly.\* Regardless... I've always known that my paws were, for a lack of better words, magical~ Call it cocky, call it vain, but I know that I'm a beautiful multi-dimensional feline in every way, shape, and form... those who refuse to believe it well... \*she states with a smirk, lifting her left paw and nonchalantly stomping in front of TC, a blast of her paw scent wafting humidly over with the rush of air.\* get to deal with that~

Though, when I started dabbling in retrieving micros as my playthings, they were allured to all of my body, but primarily my paws~ So I had them start rubbing them, licking them, some desired to clean them~ Over the course of time it just... became a natural thing~

(TC) HUNNGGH! \*Tenses as the wave of rich and wondrous scent rushes past like a gust of hot summer wind\* Uh..nn...INTERMISSION!

## **PLEASE STAND BY...**

\*A little bit later\* Mmmf... ooooooooookay... so... haHA... well... there is nothing wrong with knowing you're beautiful and finding one particular aspect of you that is admired above all others! Your footpaws are amazing and uh... you definitely know how to wield them against those of us that love them, heh. \*Rubs head\* Okay... questions questions... focus TC... We often see you dropping a macro in your boots or having them in a pair of socks - is that something they want to do (again... I don't blame 'em) - or is that sometimes... training to get them more happily acquainted with your lovely soles?

(Mynaleth) \*Grins wide at TC's reaction yet again, swaying her tail to and fro as she nonchalantly kicks back and props her paws up at the mention of said intermission. Afterward, as everything resumed, she would adopt a more casual position while keeping herself leaned forward to loom over him tauntingly.\* Why thank you for bombarding me with compliments, I certainly agree with them all~ And oh... these little things?~ \*she chuckles, plucking up her boots and setting them down nonchalantly in front of him. The tops of the boots would limp over, allowing the scent from them to escape along the set yet again in TC's general direction.\*

I'd say it's a healthy mix of both, honestly. A lot of micros adore climbing themselves in those boots, or any pair of shoes for that matter, or snuggling deeply into my socks and stockings. Though... I always tend to get the rebellious and reluctant ones that I need to train to be more obedient~ That just makes the job more fun, honestly. Seeing their will break bit by bit by my power and scent, knowing that such proud little micros stood no chance against me?~ I've yet to not make a micro fall head over heels in love for my paws and willingly throwing themselves in any opportunity to be my insole~

(TC) Mnnf... well there wouldn't be much training required for someone like me. \*Laughs, though shivers happily at the boots being nearby\* It would be interesting to see the change - sometimes folks just don't realize how nice paws can be until they're "exposed" properly to them. Now um... I have to mention that wonderful scent. I know scent is a very "mixed" thing with folks. I adore it - and yours is the textbook example of what I adore most - natural, clean but wonderfully rich with time and some clean footwear. I know there are others that dislike it entirely, or... only if it's very faint or different, and others still who like it much more... nasty (which I don't personally get, heh). What happens if you have someone who adores them but is not big on the scent?

(Mynaleth) \*Hums a playful tone as she keeps her steamy digits splayed apart, a slight gap underneath her stockings with a hole large enough to crawl in present underneath that pristine and soft main pad of hers. With a droplet of sweat dripping from said pad, she clenches her toes along the ground while pondering.\* You're entirely right, I personally feel as though anyone can be trained to love anything if exposed to it long enough~ Some things take ages, others take mere minutes! As for my paws... I'd definitely say it takes no more than an hour at the very most, and that's being generous! \*she states mischievously with a teasing chuckle following suit, the looming feline tilting her hat forward while keeping those golden eyes set on the tiny interviewer.\*

The entire scent thing does play a large role in all of this, yes~ I find that most people adore the scent of my paws naturally, which are as you described it. Hygienic and well taken care of, though a hint of a hard day's work adds that perfect spice of musk to make it all the better~ I have no issues using my magic to accommodate those who have a severe disdain or inclination, since at the end of the day it's my paws that are worshipped and tended to~ So I'm willing to alter the scent to a fresh lavender for

those preferring a 'cleaner' odor whilst those who do enjoy the 'nasty' side can indulge as well~ The more submissive they become, the happier I am~

(TC) \*Whines, taking in the visual feast of her giant paws - unlike most interviews, the sheer size makes it kind of hard not to notice\*

Well... that's actually really amazing of you to be so accommodating - but then, as you say, it works both ways in the end. And yes - I LOVE that sort of scent as it is so unique to each person, and multi-tiered with levels of robust and subtle complexities. Mmf. Well... let's turn this around a bit - what about **you** - do you like the footpaws of others? And if so, how do you go about enjoying them at your size?

(Mynaleth) \*Continues to relish in the nonchalant domination of the entire situation, keeping those delightful paws present and on display all throughout. After squirming around her seat to make herself comfortable yet again, she brushes the cosmic veil of her hat aside to glance at TC with that golden hue in her eyes.\*

I'm glad to hear that I can be accommodating to you then~ As for whether I enjoy the paws of others... definitely not. I would like to consider myself an apex predator of sorts, I dislike the concept of people being similar to my scale, let alone larger than me or in a position to potentially dominate me. As such, the idea of enjoying the paws of another... is incredibly unappealing to me. I suppose you could call me narcissistic, but the only paws I like are my own~ I adore the idea of having people fantasize and dream of my footpaws at any given moment! So no, I'm not the biggest fan of other people's feet~ Sorry, not sorry~

(TC) \*Blinks curiously\* Ohhh... now *that* is a different answer that I've ever gotten before. \*Laughs\* Well... finally, someone that might not be after my paws during this interview. Huh... so it's all about the worship and adoration of your beautiful feet then - AND you enjoy your own feet. So... perhaps a more personal question, but does that worship of your feet, or even your *own* feet turn you on any?

(Mynaleth) \*Takes the time to shift around and peel off her toeless stockings as TC speaks, letting the slightly damp fabric lay on the ground as her steamy paws expose themselves to the fullest. With her toes remaining splayed, she ponders for a few more moments before shaking her head.\* As much as I love my own paws, I don't think that I would worship or allow my paws to turn me on. Occasionally, I find myself enjoying their scent, and obviously I groom them from time to time as well, but I wouldn't say that my enjoyment of them translates to a more sexual love for them... y'know?~

(TC) \*Grits his teeth and rumbles, staring at the gorgeous paws - their scent now pretty much the default air in the area\* Mmmf. Yeeaaaahhh, I can very much see you enjoying the scent part. So then the interest and arousal comes from the act of others enjoying them? And/or being dominated by them?

(Mynaleth) Precisely~ I'm glad you caught on so quickly... much like how you've seemingly grown to adore them as well~ \*she states in a teasing manner, shifting the paw nearest to TC playfully and running the leftmost digit to brush against him a single time. Afterward, she would pull said paw back, keeping her toes splayed apart to air them out as she hums.\* Having micros fawn over my body and constantly worship me is easily the best way to gain my... love...~

(TC) \*Tenses up and whines as the toe brushes him, then watches it go back\* Okay... note to self.. interviewing Macros is way more challenging... <\_< Hmm... say, speaking of "love" - we often see a female bunny doing things with you. Is that a mate of yours?

(Mynaleth) \*Grins wide and pokes the utmost tip of her tongue out playfully at his subtle note, tapping those massive toes onto the ground and causing it to quake ever-so-slightly in the process. Afterward, she would lean forward once more, looming over TC as she smiles at the mention of the bunny.\* Ahh~ You mean Zinnia, I take it?~ She's not necessarily my mate... but I suppose you could say we're far more than typical friends as well, y'know?~ She's a delightful one, usually on the shorter side, but she despises that... which makes her into an amazing macro to bring alongside me, so I do~

(TC) Ahhh... so more of an intimate, trusted friend. Very lovely - and she's got quite a lovely set of footpaws too, from what I've seen. Now, I'm rather curious about some stuff about your physical... situation. You are a female who happens to reside in a male body. I don't think many would really realize it until they saw your uh... hardware. Is that something you easily share, or do only a few get to experience that most intimate aspect of you?

(Mynaleth) I'm certain she does~ I haven't really taken the time to look at them, but I've seen countless micros fall head over heels in love with her paws, so I'm sure they're delightful in both scent and feel~ \*She teases, clenching her toes around the ground, causing it to dig and shift around from the force alone. As TC mentions her body, she arches a brow and stares at the diminutive interviewer with a hum.\* Ahh yes, I had a feeling you'd bring this into question... So yes, I physically am male, though I do prefer to be associated as a woman. The truth of the matter being that I'm a lot like a femboy in that regard. I'm proud of my figure, how naturally effeminate I am as a guy, and I'm quite honestly proud of my package as well, if you know what I mean~ I adore messing with people's concepts of femininity and masculinity. I know I look sexy and effeminate, so I play on it to catch micros off-guard. Hell, I've had tons of micros fawn over me even harder when they discovered my manly bits~ Who doesn't love a well-endowed bulge in a cute pair of panties, right?~

(TC) \*Chuckles\* That's true - it does look very sexy. And your state of mind and emotion is far more powerful than your physical form anyway - don't choose the body we get, but we can choose how we live in it. \*Smiles\* So let's step back and look at your general day to day life - what sorta things do you do most of the time? And do you have any favourite hobbies?

(Mynaleth) \*Splays her toes apart yet again after tearing up at the earth, the musky scent continuing to waft freely as she spreads her legs in order to get comfy in her seat.\* Hmm... oftentimes I find myself going out and about for walks, whether those be in my own dimension's forest or having fun wreaking havoc in other people's worlds. As previously discussed, I perform dance and gymnastics, as well as abducting micros for my own pleasure, whether it's having them worship my paws, be used as personal insoles, dolls to play with, or break them in as potential pets~ I adore alchemy as well, practicing my witchcraft since one can never stop learning~ Those kinds of things~

(TC) Do you perform the dancing and gymnastics for anyone in particular?

(Mynaleth) My micro fans, obviously~ Oftentimes I give them a frontstage pass so they can get involved in the action~ I always give them a disclaimer to be careful and to watch my step though~ I also perform for friends, like Zinnia, from time to time~

(TC) Mmmf... I bet that would be an amazing show to see - especially with how often those lovely toes would be pointing and posing about. \*Grins\* Um, another question that I can't help but keep going back to in my head - when a micro is serving as an insole, I take it, again, they aren't harmed physically - just subjected to the full power and awe of your feet?

(Mynaleth) \*Smirks wide as she intentionally shifts her paw to nudge at her boot, allowing the cavernous and musty entryway of her footwear to position itself directly in front of TC.\* Why don't you wander on in and discover it for yourself?~ \*Teases the feline, propping her paws up afterward with a sinister grin.\* In all seriousness, yes, that's usually how it goes~ They provide my paws with some extra cushioning and warmth so I reward them with some personal time with my amazing paws~ I'd say it's a win-win situation, wouldn't you?~

(TC) \*squees\* llllllllll... yeah, I best not or I'm never gonna finish the interview. OO But YES - absolute win/win for any pawlover! Mlght take ya up on that for a weekend. << Ahem! So... about the witch abilities and travelling dimensions - how long have you been doing this? And how many different sort of spells do you figure you know at this point?

(Mynaleth) \*Chuckles and smiles proudly as she notices TC's reaction to her offer, wiggling her toes excitedly and nodding her head in response to the weekend offer. Afterward, she would merely snap her fingers, a glass of water appearing in her handpaw prior to taking a sip and setting it aside.\* I've been practicing witchcraft since the day I was... created? Seeing as I wasn't necessarily born like many others~ I'd rather not discuss how long in terms of years, for you should never ask a lady her age, but I can assure you that I've been practicing witchcraft for longer than any life on your planet could even fathom~ And well... if you can think of a potential spell or power, chances are I know something that can make it happen~ There's very little I've yet to master, honestly... all the more reason to be self-absorbed, I guess~

(TC) Wow - so... ancient, and beautiful as time itself then. And you know... I think there is always something new to learn about any craft - the day you think there's not is the day you should probably stop practicing it.

(Mynaleth) Indeed, that's exactly why I keep practicing, it's fun seeing what my brain can think up and making it come to reality~ \*she states plainly, keeping her steamy paws propped up all the while.\* As for my creation... I couldn't tell you. I simply recall waking up one day and being all alone. I suppose that's why I've grown addicted to abducting all of these adorable micros to keep me company... in more ways than one~

(TC) That would be... odd, and yeah, lonely. At least you discovered a way to have company, and in many cases, company that adores you Alright... I don't want to keep you tied up too much longer, so let's finish up by having you tell your fans, the readers of the Paw-Post and everyone whatever you like in closing! \*Smiles, though can't help but look past the towering, beautiful paws at her\*

(Mynaleth) \*Chuckles and has her paws close in on TC's tiny-by-comparison form, having those pristine paws of hers smother and sandwich him. After a slight bit of grinding, she stares directly at the camera and grinds wide, ensuring that nothing more than TC's head was seen poking out from two of her toes.\* Let's finish this off by simply saying that if you, the viewers, ever want to be in a situation like this adorable dragon-dog... you just need to worship your deity and I'm sure your world will be chosen next~ Thank you so much for having me, little one~ \*She states after shifting her attention back to TC, pulling her paws apart and standing upright, waving away.\*

(TC) \*EEEEPS and goes wide-eyed as she doles out her closing points - wrapped in the warm, musky perfection of her ancient, amazing soles - once she lets go, I stand there for a second, before huffing\* UUUUHHHHHHss...ssooo yes! Uh... interview over! O\_O Th...thank you for taking the time to join us Mynaleth! Umm... so, go check out the [gallery](#) she has posted to see all the wonderful adventures you might have if you choose to follow this inter-cosmic witch... while I go clear up my weekend schedule... <\_<

That's a wrap for this week folks! See you next weekend. \*chases after Mynaleth\* Wait!

TC
