

## Intro to be read right before Andrea begins:

To my introducer: Thank you for introducing me! Please take a moment or two and read through this introduction a couple of times so you're familiar with it.

Andrea (AN dree ah) Driessen (DREE sen) believes we should not have to be dead...to have our eulogy read. That's why she created Gracenotes—messages of mattering—for people of ages.

Her TED Talk about Gracenotes has amassed over 2 million views. And a short, artful film—considered Gracenotes' origin story—was produced by a South African team of filmmakers.

Get ready to learn why *seeing* one another through a new lens helps us live lives of greater meaning, impact, and purpose.

Andrea ....take it away~
