

THE ASSIGNMENT

Lesson Plan overview:

The theme for the unit we have been working on is "Global Issues". I have decided to concentrate on issues within the lusophone countries. The first topic we have been studying is "Racism in Brazil". Coincidentally, we will cover it in the beginning of February. Therefore, I have decided to connect that into celebrating the Afro-lusophone contribution to society as a whole.

The activity - Afro-Lusophone Project:

Students have to choose an Afro-lusophone person and prepare a presentation about it. The person they choose can be in different fields such as medicine, science, literature, art, etc. They have 1 ½ classes to work on it. They will have to create a Google Slide presentation and a poster about the person they have chosen. Then, students will add QR code to their posters, so they can be displayed on our classroom window. This way, people can visit our "Window Walk - Virtual Museum" and scan each poster and have instant access to each presentation.
