How do I fund my purchase?

> ### ∨ How do I fund my purchase? 🔗 >
>
> We will display payment information once the Sale Period starts. For all three options, you can pay with USDT, USDC, BTC, or ETH. Payments made in USDT ("Tether") or USDC ("USD Coin") will equate to the value of one U.S. Dollar ("USD") regardless of fluctuations in USDT or USDC.
>
> If you fund your account and purchase tokens with USDC or USDT, there are no fees. You can deposit USDC and USDT into your CoinList Wallet anytime at https://coinlist.co/wallets.
>
> If you fund your account and purchase with ETH or BTC, it will be converted to USDC at the time of purchase. An estimated conversion rate will be shown at the time of purchase and you will also incur a 0.50% transaction fee from CoinList for converting such funds. All purchases will be denominated in USD. You can deposit ETH and BTC into your CoinList Wallet anytime at https://coinlist.co/wallets

Can I participate in the sale without funding first?

Yes. You will have a few days to pay after you are registered.

What was the price for the private sale?

Fundraising History

Fundraising History	Amount	Price
Early Backers (May 2020 - March 2021)	6 million	Average $0.06 each
Private Sale (April 2021)	5 million	$0.2 each

Why did Clover Wallet give me a new address?
Polkadot supports different key pair types, er25529 and Ed25529. Therefore one seed phrase can map to two addresses. Clover extension wallet uses different key pair types for generating addresses. Users can safely use either address for depositing funds.

Why can't I connect to my wallet?
The team is aware of the wallet issues and is working to update.
For now, please try the following suggestion:
Remove the extension from chrome, close your browser, open again, download extension again and connect..
If this does not work, try using another browser (Brave or Chrome)
Thanks 😊

Will I need a CLOVER wallet to participate in the sale?
Yes. You will need a CLV address and to get one, you will need a CLOVER wallet.

Will the sale be First Come First Serve or Lottery system?

How the queue system works:
1. All users arriving at the site up to 60 mins in advance will be placed in a waiting room.
2. When the sale starts, users in the waiting room are assigned a random place in line.
3. Users arriving after the sale starts get a first-come, first-served place in line after those in the waiting room.
4. When it is your turn, you will have 10 minutes to enter.

Where can I get CLOVER wallet?

Currently there is only a Chrome extension which can be used on Chrome and Brave Browser
https://chrome.google.com/webstore/detail/clover-wallet/nhnkbkgjikgcigadomkphalanndcapjk/related?hl=en

What will be the circulating supply on launch?

120,000,000 (Amounts are due to the vesting periods and unlocks.)
