

# *Carter Inc.*

**Carter Enterprises was founded in 1970 by Marius Carter. Carter Enterprises was a small company located in Los Angeles that sold used vehicles. Marius Carter was a lonely and poor man, who was barely able to make his path in life. After a few years of working hard and trying to build his Enterprise. In 1978, Marius Carter got a phone call from Harold Greene, a good friend of his from Gotham. Harold Greene set up a meeting between Marius Carter and Antonio Montana. They met up in an underground party in Greece, Banz Montana, Montana's nephew was there drinking lemonade as the two negotiated. Antonio Montana and Marius Carter agreed to partner up and begin their drug ring in the US. Marius Carter would run the legal side of the Enterprise, while Antonio Montana would run the drug ring, extortion, and weapon selling. Marius and Montana would be a good duo, along with their Chairman Harold Greene. They would begin working on a boxing ring, a small one but an efficient one to get their name up there. Antonio Montana would talk to some of his old friends from back then, and begin making Carter Enterprises more known. Marius bought billboards, and used the money he saved over the years to advertise. Mr. Montana being back in the US made him nostalgic, it's been a while since he's seen the chaotic lifestyle of New Yorkers. Antonio Montana had an idea, to form Carter Enterprises into a Criminal Enterprise, a syndicate strong enough to bring The Montanas back to their old **Glory**.**

## **Mr. Montana**

**Mr. Montana was born in 1939, Cuba, he lived most his life in Greece as it was where his Family was from. Mr. Montana had a rough childhood, his mother would constantly tell him that he would be a failure. Antonio Montana formed a little gang when he was a teenager, he had a good group of friends. Mr. Montana was first locked up at the age of 11 for storing illegal firearms. He was sentenced for two years and released at 13, Cuba and Greece were different then the US, from the age of 8 people were already selling drugs. Mr. Montana permanently moved to Greece at the age of 16. It was a lot different than his life in Cuba, he lived in the hills. His family in Greece were rich, all of them living in mansions. His family in Greece is what got him involved in Organized Crime. Antonio was inspired by Al Capone, he respected the way he was respected. Mr. Montana's Father who lived in Greece started giving Mr. Montana little things to do, either little shipments to take care of or just collecting a bit of envelopes. About a year into it, Mr. Montana's cousin got him involved at social clubs and started having him work security for their black jack games. As the years pass, he moves to New York. The year is 1983. Cocaine was the currency and blood was the price. Family were formed and brotherhoods were betrayed, as everyone wanted to get in on a piece of the action. The bosses were taking cuts; big cuts. So much money was flowing into New York while the feds turned a blind eye. Everything seemed to be going perfectly fine in the criminal underworld. But a feud was brewing...Mr. Montana's massive empire was growing bigger and bigger with every passing day. But even the rich get greedy.**

# **Marius Carter**

**Marius Carter was born in 1949 in the United States, Los Angeles. Marius Carter was a privileged kid who grew up with Daddy's money. Marius got into the best schools, and had no worries. Marius's Father was a rich man due to him owning a Company as well, which led to Marius wanting to follow in his footsteps. Once Marius was of age, he set up an Enterprise called, "Carter Enterprises." Which he had great plans for. Originally Marius was using his privileged money to forward his business but out of pride he decided to cut ties with his Father's money and work by himself to set up his Company. This led to Marius Carter eventually becoming more poor, and not being able to afford the basic needs he needed to afford. There was another Company selling the same Vehicles Marius was selling but cheaper and nicer, Marius and Harold Greene fire bombed the other Company late and night which set a big fire. When they woke up the next morning, they saw on the news that two people were killed in the firebombing, who weren't even related to their "legal" war. Eventually, even though Marius got rid of the competition he was running out of money, and he was losing his money quickly. He ended up going out to Mr. Montana , and with the help of Harold Greene they managed to establish a partnership to get back to New York.**

# *Harold Greene*

**Harold Greene always kept himself private, going under new names and new personas. He always tried to gain an upper hand on situations bouncing from project to project and gang to family. Stratton Oakmont was who he was with when he began to notice Marius Carter, a up and coming businessman with the potential to grow an empire. Dropping the name he was using before, Harold approached Carter after he fell destitute and poor with a new way to conduct business. Harold planned a firebombing to put the competitors out of business, as well as deal with two people who knew his real identity in one fell swoop. After the firebombing, Harold decided to commit to Carter Fully and began to reach out to an old friend by the name of Montana. Deals were made, Arrangements were set up and Carter Inc. was reborn.**
