LOVED BY MIRANDA.

RULE ONE. FOLLOWING // UNFOLLOWING

I make an effort to look at everyone who follows me. I automatically go straight to their rules and about pages. (especially if they are an OC) If you do not have either of these there is a chance I will not follow you. I do follow characters from other fandoms, especially if they have a 'The Force Awakens' / 'The Last Jedi' / 'The Rise of Skywalker' verse or I have a verse in whatever fandom they are from. But on occasion my dash gets too cluttered and I sometimes have to unfollow people. Especially if we are not interacting.

RULE TWO. OCs // AUs // CROSSOVERS

I will RP with OCs. Shoot me a message! Especially if you want to plot something. I am a plotting machine! My only rule about writing with an OC is that you must have an about page so I can learn about your character. AUs are always welcome. There are some AUs in my wishlist and I always welcome suggestions for threads. If you have an idea for an AU with Kaydel please message me. Crossovers with other fandoms are fine as long as we can find a plausible way to accomplish this. If you have an idea or you see a compliant verse on my Verses page let me know if you would be interested. Also if you do not see a verse for your fandom that does not mean I would not be open to it. It just means I haven't thought of one yet.

RULE THREE. MEMES // PROMPTS // DRABBLES // ASKBOX THINGS

My ask box is open for a reason (along with anon turned on – for the moment).
Please send me all the fun things!
(The only thing I don't really do is magical anon.)
But I do love silly things and fun ideas! I also love writing so drabbles and prompts are always appreciated. If we have some threads going already you can still send in as many memes as you would like. There is no limit to the number of threads I will have going with someone. I accept memes from non-mutuals.

RULE FOUR. SHIPPING

I ship chemistry. Kaydel and I are both legal adults.
We will not RP NSFW if you are not of age.
I know most people like to fade to black which I am completely fine with. Let me know what you are comfortable with and I will be more than happy to comply.
At the moment I don't really have any NOTPs besides for Kylo/Connix or Ben/Connix since she is his sister in my main verse. If you are a Ben/Kylo Ren and are interested in shipping with Connix in her Movie verse canon let me know and we can talk. :).

HISTORY

What if Lt. Kaydel Ko Connix was actually Breha Organa Solo?

(Detailed breakdown can be found [HERE](#))

Changing her name to avoid rumors of favoritism and bias Breha worked under her mother as a stranger for years as she built her way up in the Resistance. 'Kaydel' took more after her mother, not feeling connected to the force in the same way as her brother Ben was.

While she still feels a pull it is in a different way, more subtle. The similarities to her mother go beyond her appearance.

She barely remembers her Uncle Luke, her actual brother Ben Solo (though she is now very familiar with Kylo Ren) , or her father since it has been years since he had been actively in her life when he passed. So much has happened since the creation of Kylo Ren.

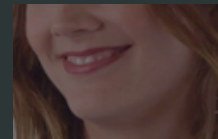

Her own lightsaber sworn off and long forgotten since she never finished her own training, Breha is working for The Resistance as a controller rather than out on the field. Ben was always better anyways. Or at least at that point had been.

With each family loss, Breha tries to fight the devastating feelings and channels it into helping in the fight.

When her mother passes she has no words. There is no time to mourn. She knows Ben or Kylo or whoever he is felt it too. She has no where near the bond that her mother and uncle had formed over time with him. But she knows that he felt it. She felt him.

The only thing that keeps her going after the loss of Leia is the kind face of Larma D'Acy who had been a long time friend of her mother's. She was also one of the only ones that knew the truth of Kaydel's birth and name.

When Poe Dameron returned ... Well it was a small time of mourning before he began to plan. Her mother had trusted him. Breha trusted him. As he relit the spark she knew they would all be giving their all to finally take down the First Order and make her family proud. They would not go down without a fight. So she went into an active field role and helped destroy the navigation tower on the Sith's star destroyer, *Steadfast*. She hurt her leg in the process but lived to celebrate the Rebellion's victory over

finally ending The First Order.

With the final loss of her brother, Breha finds herself the last known living Organa Solo in the galaxy. With that name she feels comes great responsibility. Though she would love to do nothing more than take a moment to try and enjoy the Resistance's victory she knows what is to come next is just the beginning. It is time to rebuild after the horrible mess the First Order left behind. She will take a little time to mourn all those they have lost but she knows she has to be there. With all the skills her mother has taught her she intends to see things through. This time they will keep the peace. The Force seems to finally be in balance...

VERSES

VERSE ONE

VERSE TWO

VERSE THREE

Main. Kaydel Ko Connix is actually Breha Solo - daughter of Han and Leia; younger sister to Ben Solo. Takes place during the Resistance. Blanket verse.

CHILDHOOD. Breha before Ben turned.

PRE-Resistance. With her brother gone to the dark side, her father having left home out of guilt and her mother throwing herself into her work, Breha reinvents herself as Kaydel Ko Connix so as not to receive favouritism.

VERSE FOUR

THE FORCE AWAKENS. Three decades after the Empire's defeat, a new threat arises in the militant First Order. Stormtrooper defector Finn and spare parts scavenger Rey are caught up in the Resistance's search for the missing Luke Skywalker. Meanwhile General Leia Organa heads up the Resistance to fight against the new threat. Kaydel finds herself working as a lieutenant and junior controller under her command. Though Leia had hoped never to relive these times she is happy to have her daughter close even if it is secret.

VERSE FIVE

THE LAST JEDI. Connix is promoted and sent to organize the evacuation of D'Qar after witnessing the destruction of the Hosnian system. Lt. Connix is still working for the Resistance which has found its numbers severely dwindling. When General Organa is injured, Vice Admiral Amilyn Holdo takes command. Disapproving their leaders' passive strategy, hot-headed Poe Dameron, ex-stormtrooper Finn, BB-8, and mechanic Rose Tico embark on a secret plan to disable the First Order fleet's tracking device with Kaydel's help.

As the Resistance numbers continue to dwindle, Connix makes the decision to side with Dameron over Holdo. He's one of her pilots who's saved them on more occasions than she can count. Why wouldn't she place her trust in him now? At least it feels like they are doing something. (Or have they just messed everything up?)

VERSE SIX

POST THE LAST JEDI. - Escaping on the Millennium Falcon with Rey and the rest of the Resistance it is time to regroup and figure out the next move. On board the Millennium Falcon, Connix tries to help everyone pick up the pieces and start to reorganize. It had seemed like hope was lost on Crait but then Luke Skywalker had reappeared and provided a distraction for them to escape and fight another day. The loss of such a well-known hero was a blow to them but nothing compared to the losses General Organa was now suffering. She had lost her husband and twin brother in such a short amount of time and her son was still lost. They needed to cling to the little bit of hope Luke had brought with his appearance.

So with that in mind, Kaydel begins to work hard to make note of all of their supplies and what choices they have ahead. There has to be light somewhere.

They seek refuge on Anoat and eventually she helps establish a new base on Ajan Kloss.

VERSE SEVEN

THE RISE OF SKYWALKER. After the battle on Crait, Connix put the mutiny behind her. She was still trusted by Organa, and retained her rank, though the general was disappointed that Connix had supported Dameron's actions. However, Organa knew she had meant well, and forgave her. Connix witnessed the destruction of Tah'Nuhna during her time at the Resistance Camp on the garbage planet of Anoat and informed General Organa. Sometime later, Connix

VERSE EIGHT

POST SERIES. The official war is over but there is still much to be done to keep this new-found freedom. Taking a small time to mourn the true loss of her family, Brea remains on Ajan Kloss for a while, following in Luke and Leia's footsteps as she relearns her Force training. Practicing daily Brea feels her connection to the Force growing back to what it once was before she'd blocked it. All while she worries if they will make General Organa... and Princess Leia

VERSE NINE

CANON. - Blanket Verse. Kaydel Ko Connix is just another person wanting to free the galaxy from the First Order. Hailing from Dulathia, she joins the resistance as a junior controller before moving up the ranks and closer to her hero, **Princess** General Leia Organa

helped Rose Tico and Beaumont Kin establish a new base on Ajan Kloss. When the Resistance heard word of Emperor Palpatine's return on the Sith world, Exegol; they sent a force to destroy him, before he could escape the planet. Connix, alongside Tico and Kin, participated in the assault on the Sith's navigation tower, on the Star Destroyer Steadfast. During the assault, Connix injured her leg and was helped back to the Fortitude by Kin. She later celebrated the end of the First Order at the Resistance base alongside Tico and Kin. Though it was shortlived for her after she was faced with the reality that she truly was the last of the Organa Solos...the last of the Skywalkers (by blood).

VERSE TEN

Continuing Solo. Continuation of my Breha Solo verse for Post-IX.

With the final loss of her mother and Ben Breha finds herself the last known living Organa Solo in the galaxy. With that name she feels comes great responsibility.

Though she would love to do nothing more than take a moment to try and enjoy the Resistance's victory she knows what is to come next is just the beginning.

It is time to rebuild after the horrible mess the First Order left behind. She will take a little time to mourn all those they have lost but she knows she has to be there. With all the skills her mother has taught her she intends to see things through. This time they will keep the peace.

Working with the likes of Rey Skywalker, Finn, Poe Dameron, Rose Tico, and many others they begin to work on bringing the galaxy back to peace.

With some guidance from C-3PO and words her mother had passed on (as not only General Organa but also Senator Organa and her own favorite, Princess Leia) , Breha is trying to help form a new government that will work to protect from the likes of a First Order reappearing.

VERSE ELEVEN

SUPERNATURAL AU. Family Don't End in Blood

Inspired and drawn from this [themandalorianwolf](#) post.

This haunting series follows the thrilling yet terrifying journeys of **Kaydel** and **Rey** Skywalker, two sisters who face an increasingly sinister landscape as they hunt monsters.

After losing their father to a supernatural force, the sisters were raised by their mother as soldiers who track mysterious and demonic creatures. When their mother goes missing on a "hunting" trip they take up the family business. Violent memories and relationship-threatening secrets add additional burdens on Kaydel and Rey as they investigate all things that go bump in the night. As old tricks and tools are rendered useless and friends betray them, the sisters must rely on each other as they encounter new enemies.

Along the way they find help from their Uncle **Luke** (their encyclopedia that is always a phone call away) ,

VERSE TWELVE

Modern. Verse still being fleshed out but the general idea :

Leia is a famous politician (possibly due to her distant relation to royalty but she does not play in that circle anymore). Han is a former military flyboy and now is retired and has his own plane. He bonds with Poe Dameron, son of his wife's former bodyguard (Shara Bey) over their service and love of flying. Rey is a being a mechanic/parts person that they end up finding and Han starts teaching her more about planes and flying and Ben gets a crush on this chick his dad has all but adopted.

Meanwhile Kaydel/Bre is working for her mom as her assistant or something? Basically what if the general dynamic was all moved to modern day with Ben as the angsty son always pretending his father is dead, Rey as the father stealer, Poe as the cool 'not son', and Leia as the one always stuck with the insanity.

What an insane bunch.

This verse was originally inspired by mamalaz's series of posts titled 'Modern Solo Adventures' .

The Force seems to finally be in balance...

This verse is very open to the idea of Ben Solo SURVIVED .

an (fallen?) angel named **Finn**, and some weird indie folk singer named **Poe** who claims to be a prophet and seems to be making songs about their life...

VERSE THIRTEEN

DARK!SIDE BREHA. Breha if she'd left the temple with Ben.

Current name undecided.

Breha leaves the side of the light to go with her brother who she believes her uncle tried to kill. Loyal to her brother she travels with him and the eventual Knights of Ren to join the First Order.

Cutting her hair to sever her likeness to her mother and doing her orange lightsaber she fights against the Resistance to keep her brother safe, believing her family has betrayed them and abandoned them to the darkness.

Lady Kiva'h

VERSE FOURTEEN

MUSICIAN AU - CLOSED. I WILL MAKE YOU LIKE BILLIE EILISH, OLD MAN.

Closed verse. Inspired by

@onehell-of-a-pilot's musician verse.

Leia is coowner of a record label named Organa in honor of her adoptive family. Poe Dameron, the son of a good friend is on the label. With the threat of being dropped, Poe agrees to work with Leia's newly signed daughter in writing some songs.

VERSE FIFTEEN

MUSICIAN AU. Verse inspired by my musician verse with @onehell-of-a-pilot.

Breha is a young newer act to her mother's record label.

Also signed is her mother's godson, Poe Dameron.

I had more for this but I have forgotten it. TBD.

BASICALLY Breha is an indie musician, piano based. Sets are normally with piano or acoustic. She's always on the lookout for a guitarist.
