

We ran away, but we want to be found
Follow these clues to see if we're around
First stop is where you put your clothes away
Check there now, but don't expect to stay

You found another clue by working as a team
But there's more to this hunt than it might seem
If you want to find us in just a bit
Then look in the place where Josh and Tish sit

You've got eagle eyes if you found this one
Gotta keep going, the chase isn't done
Look for a rainbow that lives inside
That is where the next clue will hide

You followed us all this way
We visited these places, but didn't stay
Next check in the place we were made
Hope your energy isn't starting to fade

You listened carefully and are getting near
Hope this last clue is very clear
We decided to take a quick winter's nap
In a cozy spot, snuggled in bear's lap!

You found all of us gingerbread cookies
As detectives, you're no rookies
You worked so hard to make us
Now it's time to decorate and taste us!
