Music GCSE Revision Resources

All students will be provided with a text book which covers all areas of the course fully. In addition to this, we subscribe to Music First/Focus on Sound, an excellent interactive website which enables students to consolidate their learning of key concepts, hear examples of these and answer questions to test their knowledge. They will receive login details for this during year 9. The interactive PLCs which are shared with students include links to Quizlets which are online flashcards to help with learning the definitions of key terms.

If you wish to purchase the revision guide it is available here from the publisher and also on Amazon here.
