

Once the judging is completed and the winners have been finalized, you are ready to make the announcement on your HeroX page! To do so, follow the steps below:

First, go to your main page and click on the “View Submissions” button within the Entries tab:

Once you are in the View Submissions dashboard, check the box next to the username and entry of your winner(s):

Next, click on the “Winner” drop down menu located above the entries list:

Edit winner types

From here, you can pick the relevant winner type for the user you selected. You can also create your own custom label by clicking the “Edit winner types” option at the bottom of the list.

Once you have selected the winner, a pop-up will display asking “Are you sure?” Click the “Yes” button and the information will be saved. Your HeroX page will automatically publish the winner(s) when your “Winners Announced” event is triggered in the Timeline, or when you click on the “Publish Winners” button.
