

Editors Note; UMass is the #3 employer in Western Massachusetts and has been Amherst's #1 employer for over 100 years. Every September Amherst is blessed to have thousands of exuberant new consumers flock to the University for the first time. 95% of UMass students are industrious, mature, decent individuals driving on the road to success. It's the 5% you read about here. And *they* need to change their act. Or better yet send them home to live in Mommy and Daddy's cellar.
