

ATTENTION! SOPHOMORE STUDENTS & PARENTS

The application for next year's Chicago Builds citywide construction training program is now open to all 10th and 11th grade CPS students!

Chicago Builds is a two-year off-campus construction training program (similar to Chicago Police and Firefighter Training Academy) for 11th and 12th grade CPS and Charter School students interested in pursuing a profitable career in construction. Students who participate in Chicago Builds will receive training in Carpentry, Electricity, Heating and Cooling (HVAC), Welding, and General Construction. Students will also have opportunities to earn certifications, participate in paid work-experiences, earn high school credit, and more!

As part of the regular school day, Chicago Builds classes meet five days a week **either** during the morning cohort (8:45 am to 10:45) **or** the afternoon cohort (2:00 pm – 4:00 pm) throughout the school year at the Chicago Builds Construction Campus, located at 3000 S. King Drive (inside Dunbar High School).

The application process for students interested in Chicago Builds is as follows:

Part 1: Set up meeting with your counselor to discuss your interest in applying to Chicago Builds and application requirements, scheduling, and eligibility

Part 2: Complete the online form found at ChicagoBuilds.org and submit the School/Parent Consent Form via the application. Interested students should go to ChicagoBuilds.org for the application.

Part 3: If accepted, you will be sent a link to claim your seat for the upcoming enrollment period. Follow the instructions provided.
