MONDAY CLASSES

M The Hub (2-5)

Enjoy snack and some play before settling down to get your homework finished. Adult guidance will be provided while you finish assignments or required reading. When your work is completed, choose from computer, art, or games.

M Gymnastics (Pre-K- K)

Instructor: Rudy Van Daele, Life Sport Gymnastics

Have lots of fun as you increase flexibility, balance, strength, and coordination in a nurturing environment. Develop self-esteem and confidence by achieving mastery of a series of challenging movements. All levels Welcome.

M DRAMAZONE® MUSICAL THEATER: **Frozen (K-3)**

Instructor: DRAMAZONE® MUSICAL THEATRE:

Ever wish you could make your own snow, or become a giant marshmallow? Join Elsa, Anna and Olaf to become part of the magical wintery mix that is Frozen! Based on the musical extravaganza, children will learn

to sing, dance and act in preparation for a show at the end of the semester. All talents welcome. Children with special talents may be featured.

Dress: Comfortable clothing and sneakers

M Sports of All Sorts (Pre-K-2)

Instructor: Nelson Sanchez,

Have the opportunity to play a variety of team sports including Floor Hockey, Basketball, Flag Football, Baseball, and more! If you love sports, this class is for you!

M Flag Football (3-5)

Play Flag Football and more! This class allows athletes to build on their Flag Football skills. On good weather days, Flag Football play will be in the park, so please dress for the weather.

M Creative Writing (3-5)

Instructor: Writopia

Come join us at Writopia Lab for a semester of storytelling and group literary games! During workshop, which is led by a published writer or produced playwright, writers craft their own original writing pieces. Our goal-oriented method helps students set and achieve writing goals within an inclusive environment that empowers young people to find their writing voices and to ultimately become confident, fluid writers. Creative Writing workshops are student-centered and author-led. We empower students to explore a number of forms and genres as they gain skills in writing, editing, analysis, and effective communication. Our workshops allow a community of young writers to find each other, connect via their literary passions, and have lots of fun. Creative writing workshops are peppered with original and fun writing games and exercises that help students complete stories. Students will explore their characters, create compelling plots, and build sensorial settings. They will get to share their writing in a safe and supportive space and learn how to give and receive insightful feedback.

M iImagine Storytelling (K - 2)

Instructor: **Bloom Performing Arts**

3, 2, 1, Action! In Bloom Performing Arts' most popular class, students will experience the joy, wonder, and magic of storytelling through performance. Through the exploration of improvisational games, beginning debate exercises, acting lessons, and storytelling activities, your student will be ready to engage any audience with bravery and confidence. The class culminates in a filmed final performance of an original Bloom Performing Arts script. The performance will be edited by a professional film editor and made into a movie, making a memory that'll last a lifetime! Join Bloom Performing Arts this semester and let the creative storytelling begin!

M Just Desserts (K-3)

Instructor: Chef Cameca Johnson

Dabble in sweets to begin learning cooking skills. Experience measuring and mixing, stirring and sipping, cooking and baking with a professional pastry chef. Recipes will be given with take-home goodies.

M New! Aventuras en Español (1-3)

Instructor: El Taller Latino Americano

Children will expand their vocabulary and experience language in context through an artistic lens. They will explore geographic features, rhythms, shapes, languages, foods, ecosystems, and traditions. Our after-school program takes a dynamic, multimedia approach to strengthening your child's Spanish language skills. It is inspired by the concept of "*THE STATE OF THE HAND*" — *Somos humanos porque usamos las manos* (We are human because we use our hands).

Through music, movement, and art, children embark on a cultural journey into the vibrant mosaic of traditions that make up Latin America.

M NEW! Ceramics for Kids (1-4)

In this YMCA class, children will explore the entire ceramics process including making, glazing and firing their very own masterpieces. Projects such as sculptures, mugs, lanterns and more will be created throughout the duration of the program. Our staff will work with each student at their own pace to ensure the love of the arts is given support to thrive in each child.

TUESDAY CLASSES

T The Hub. (2-5)

Enjoy snack and some play before settling down to get your homework finished. Adult guidance will be provided while you finish assignments or required reading. When your work is completed, choose from computer, art, or games.

T NEW! Mandarin (Pre-K - 3)

Instructor: Manhattan Mandarin

Beginner Mandarin

The wonderful teachers of Manhattan Mandarin will help your child begin his/her journey towards Mandarin fluency. Children will build the foundation of essential language skills in a fun and engaging class that focuses on tonal pronunciation, sentence building, initial character writing, numbers, family, foods, and hobbies. Songs will be sung and projects will be completed while your child falls in love with learning Mandarin and all about Chinese culture.

Heritage Mandarin

Returning students and students who speak at home are encouraged to enroll in our heritage Mandarin course. Now that the linguistic foundation for Mandarin is in place, students are ready to build upon existing vocabulary and strengthen conversational speaking abilities. Our teachers ensure a supportive and

encouraging environment that helps build confidence while using Mandarin to communicate with classmates and teachers alike. Confidence is key to both enjoyment and progress along the Mandarin learning journey!

T Minecraft Code: Star Wars (1-3)

Instructor: Code Advantage

May the Force be with you! Using the Minecraft platform, students will learn coding fundamentals while exploring fantastical worlds - constructing and coding everything around them including vehicles and planets! In this educational and fun-filled class, students will overcome challenges while learning coding concepts including coordinates, functions, methods, loops, variables, and more! Whether your child is a big Star Wars fan or has an interest in space, this class takes them on an exciting “out of this world” adventure!!

T Intermediate & Advanced Chess (1-5)

Instructors: US chess academy

This class is designed for students who intend to compete in tournaments. Students will hone all important tournament skills in a fun way with practice chess tournaments, tactical challenges and practical techniques to improve performance. If you are interested in joining the Chess club, please fill out this form: [chess club](#)

M NEW! Hip Hop (K-2) Drama Zone

Instructor: DRAMAZONE® MUSICAL THEATRE:

Taylor Swift Commercial Hip Hop Dance – Beginner to Intermediate Level by DramaZone®

Calling all Taylor Swift fans to this very popular class as we dance to Taylor’s greatest hits. Songs like: Shake it Off, Bad Blood, and You Belong to Me. All music, choreography and dance moves are kid-friendly and fun.

Dress: Comfortable clothes and sneakers. Dresses must have shorts or leggings.

T iImagine Filmmaking Grades 3-5

Instructor: Bloom Performing Arts

Welcome to Filmmaking 101! Join Bloom Performing Arts in this exciting introductory course where students embark on a full production journey — from storytelling and performance techniques to filming and directing. Throughout the semester, students will step into the roles of screenwriters, directors, and actors. The class will begin by collaboratively writing a short film, and by the end of the course, students will bring their story to life through filming, performing, and directing. As a special bonus, students will meet with the professional film editor who edits their movie, gaining insight into the filmmaking industry. Don’t miss this fundamental course that will inspire and empower the next generation of filmmakers. Join us this semester — and let’s get the camera rolling!

T Tennis (Pre-K-1)

Instructors: Tennis Innovators

Learn tennis in a positive, interactive environment. Use unique equipment that is specially designed for instruction – balls are colorful, lighter and low in compression, allowing them to bounce lower and move slower, and racquets are sized for all ages. Develop optimal swing patterns while playing games designed to encourage consistency and interaction. Groupings will be by age and motor development.

T Super Science (K-2)

Instructor: Dazzling Discoveries

Launch, build, mix and learn about all types of science in this fun filled science class! Everything involves hands-on learning. There will be a new project to make and take home every week. Students will learn chemistry, physics and engineering principles by making color changing potions, safe explosions, building bridges and other structures, studying animals from an engineering perspective and much more. Explore all kinds of science and engineering concepts with Dazzling Discoveries!

T NEW! Re-Fashion Lab (1-4)

Instructor: **creative nature nyc**

Turn old clothes into new creations! In this hands-on workshop, young designers will learn basic hand-sewing skills while transforming worn-out items into unique fashion pieces. From headbands to purses and printed scarves, kids will craft with both recycled and new fabrics—all while exploring sustainability and self-expression. No experience needed—just creativity and a couple of clothing items to reimagine!

Children can bring an old t-shirt they'd like to refashion, as well as another clothing item that needs mending. In addition to these personal pieces, we'll provide both new and recycled fabrics for a variety of fun projects—like a hairband, purse, jewelry, printed scarf, and more.

:T Baseball/Gaga (K-4)

Instructor: Corbins

Work on the basics in throwing, catching, batting, base-running and more. Learn to play and improve your skills in America's Pastime. This is how we get to be a ball – player! Join the team – learn from the best who not only teach the sport but they foster the love of the game! When it's raining or cold, we'll play GAGA indoors.

T Gymnastics (K-2)

Instructor: Rudy Van Daele, Life Sport Gymnastics

Have lots of fun as you increase flexibility, balance, strength, and coordination in a nurturing environment. Develop self-esteem and confidence by achieving mastery of a series of challenging movements. All levels Welcome.

WEDNESDAY CLASSES

W The Hub (2-5)

Enjoy snack and some play before settling down to get your homework finished. Adult guidance will be provided while you finish assignments or required reading. When your work is completed, choose from computer, art, or games.

W Beginner & Novice Chess (Pre K-1)

Instructors: US chess academy

Rookie Rooks/ Novice and Beginner Chess

This warm and inviting entry-level chess class is designed and paced for novice players eager to learn and build on chess fundamentals. Rookie Rook Beginners will quickly learn piece movement, captures and essential checkmating patterns, while Rookie Rook Novice players will boost their chess fundamentals with the principles of chess opening and middle game strategies. Instructors use a series of group lessons and interactive mini-games, in addition to worksheet puzzles, chess videos and helpful thinking music, to help players develop a love for the beautiful game of chess, all the while enjoying thoughtful social time with friends! Each lesson emphasizes critical thinking, problem solving and strategic planning, and of course plenty of time for practical over-the-board practice play. If you are interested in joining the Chess club, please fill out this form: [chess club](#)

W Comics, Anime and Manga Drawing (2-5)

Instructor: The Art Studio NYC

Calling all creative comic book, anime, manga, and cartoon lovers who are eager to express themselves creatively and have FUN in the process! This engaging, encouraging and inspiring kids online art class teaches students brand new drawing techniques, tricks and necessary tools to create successful and lively cartoon characters. Our expert artist and educator from our #1-rated NYC art studio will provide group and individualized instruction as students dive deeply into every aspect of character development, from learning how to draw faces, bodies and impactful expression to hairstyles, clothing, facial features and ultimately, the creation of a unique set of characters that tells a story.

W NEW! LEGO Robotics (3 - 5)

Instructor: Code Advantage

Students will learn essential coding, engineering, and problem solving skills by building and programming custom robots. Using sensors and motors coding, we create a strong foundation as kids collaborate in teams to complete fun, interactive missions and challenges!

W Flag Football (1-2)

Instructor:

Play Flag Football! This class allows athletes to build on their Flag Football skills. All Flag Football play will be in Central Park, so please dress appropriately for the weather.

W Dynamo Girl (K-2)

Instructors: Dynamo Girl Coaches

Dynamo Girl teaches girls fundamental sports skills in a fun and joyful environment. At Dynamo Girl, girls are exposed to sports such as: flag football, basketball, soccer, and volleyball while they increase their speed, strength, and agility through obstacle courses and games. Our curriculum also provides the girls, individually and as a group, many opportunities for building teamwork, communication, and problem solving skills. Dynamo Girl makes your daughter stronger inside and out!

W Music and Movement (Pre-K-1)

Instructor: Chris Bittner

Sing and dance and learn! In this class, children will learn exciting songs and develop pitch-matching while singing along. They will work on gross-motor skills through dancing and musical movement, practice repeating and maintaining rhythms, and be introduced to basic music theory skills, all while having fun!

W Swimming (K-2) YMCA

YMCA -Students learn personal water safety and achieve basic swimming competency by learning two benchmark skills, taught by YMCA swim Instructors:

- Swim, float, swim—sequencing front glide, roll, back float, roll, front glide, and exit, and
- Jump, push, turn, and grab.

YMCA will provide swim caps, **but please provide goggles, swimsuit, towel and a plastic carry bag.**

An EC instructor will escort children to the Y to change, stay for the lesson, and escort them back to EC.

W Fencing (2-4)

Instructors: Corbin's Crusaders

Learn the elegant sport of foil fencing with experienced coaches. Children will learn the fundamentals in footwork and movement as well as etiquette in this historical and traditional sport

W The Mystery of Magic (Grades 2-5)

Instructor: Kids Action

Be part of the mystical and exciting world of magic. Every week our Magic Gurus will introduce the apprentice magicians to a few different tricks. The kids will be able to impress their friends and family with various card tricks, disappearing coins, sleight of hand and more. We supply the materials and expertise, the students bring their enthusiasm. At the end of the program, we will have a performance.

W Karate - (1-3)

YMCA

In this class, students will focus on developing not just their martial arts skills, but also essential life skills. The program is a journey that enhances physical conditioning, mental awareness, and self-defense strategies. Students will refine attributes such as speed, power, focus, and balance while cultivating discipline, self-control, teamwork, and coordination. YMCA staff will work with each student at their own pace to ensure that each student is given the support to thrive in their martial arts classes.

W NEW! School of Rock (2-5)

Instructor: School of rock

Rock 101 is one of School of Rock's major programs for kids and beginners. It combines our core philosophy of performance-based music education with a unique curriculum designed for kids with no previous musical experience. Students have one weekly group rehearsal where they learn classic rock songs that have been simplified specifically for beginner musicians. These rehearsals get young musicians to learn the fundamentals of their instrument while playing with a band in a positive and fun atmosphere.

THURSDAY CLASSES

The Hub. (2-5)

Enjoy snack and some play before settling down to get your homework finished. Adult guidance will be provided while you finish assignments or required reading. When your work is completed, choose from computer, art, or games.

Th Central Park Zoo - Amazing Animals, from Local to Global (2-3) Starts 10/9

Instructor: A Conservation Educator from Central Park Zoo Education

A Conservation Educator from Central Park Zoo Education will lead a conservation themed after school program to students. We're investigating animal diversity around the world and around the corner in Amazing Animals. Each session in this program prioritizes time outdoors, including exploration in Central Park, with activities like birding and scientific studies. We will even take occasional field trips to the Central Park Zoo for special animal encounters. With hands-on learning activities and the beautiful park as our guide, students will learn about the wild world of wildlife right here in New York City and across the globe. From tiny tardigrades to elegant egrets, this program is WILD!

There will also be 4 to 6 field trip visits to the Central Park Zoo

Th NEW! Skateboarding (2-5)

Instructor: Kids Action Sports

Whether you already know how to do an 'Ollie' or want to get started with skateboarding, this program is for you. Learn and enjoy the basics through advanced moves on a board. From push offs to fakies, this safe and awesome program will thrill you.

Th NEW! Jr. Architect (K-2)

Instructor: Arde Kids

This class is for those who want to build on a grand scale. Mega tall pyramids and skyscrapers up to the ceiling (ceiling scrapers), a bridge as long as their classroom, or a watchtower for their favorite superhero are among the structures students are going to erect in this class. Young architects will work individually to build furniture, create 3D-scale models of their dream homes and design elaborate street facades.

Th Lego Robotics (K-2)

Instructor: Code Advantage

In this robotics course, we use a hands-on approach to STEM discovery. Students learn valuable coding concepts while tapping into their imaginations to create and program robots. Step by step, we build a variety of cool Lego robots based around a motor and controller. Then, kids use a block based programming language to make their creation come to life! It's educational, cool, and FUN!

Th NEW! Cook the Book (K- 2)

Instructor: Catrina

Not a typo - Read a book & get inspired to cook a recipe.

Begin cutting and chopping, measuring and mixing, tasting and timing as we create delicious things to eat. Use our favorite foods to create apple crescent rolls, pumpkin bread, dinner pizza, dips, snacks and much more.

Dairy, eggs and gluten will be used in these recipes.

Th Super Soccer Stars (Pre-K-1) (2-4)

Instructor: Super Soccer Stars youth soccer

This program offers a fun, positive, and non-competitive environment where children will learn the fundamentals of soccer. Our coaches use positive reinforcement to teach skills while building confidence. These classes will start with a warm-up, continue with skill building, and end with a small-sided scrimmage match.

Th Adventures in Art (Pre-K-1)

Instructor: Nelson Sanchez

Explore different artistic materials and create masterpieces! Practice planning and executing ideas, while tapping into your imagination. Work with paint, pencils, yarn, and more. Develop and expand fine motor skills while learning about color, light, spatial reasoning, and artistic techniques.

Th **NEW!imagine Speech & Debate (Grade 3-5)**

Instructor: Bloom Performing Arts

Join Bloom Performing Arts for our introductory speech and debate class. This educational and engaging course combines elements of public speaking, debate, performance, and improvisation. Each week, we'll cover the basics of speech and debate, including lessons in reasoning, refutation, and speechwriting. We challenge our students with a range of explorative and thought-provoking games to expand and strengthen their critical thinking and public speaking skills. This course specifically prepares students for the middle school debate team. Sign up for our introductory speech class, and let's get debating!

Th **NEW! Team Sports (2-4)**

Instructor: Corbins

Why try one sport all season long when you can play one or more? Rotating through sports offers broader exposure, greater understanding of "team" and allows the kids to determine their favorites for themselves. Soccer, basketball, baseball, football, dodgeball, and more!

Th Gymnastics (K-2)

Instructor: Rudy Van Daele, Life Sport Gymnastics

Have lots of fun as you increase flexibility, balance, strength, and coordination in a nurturing environment. Develop self-esteem and confidence by achieving mastery of a series of challenging movements. All levels Welcome.

FRIDAY CLASSES

F Cross Country Running (3-5)

Instructors:

Join us for fun Friday afternoon runs in Central Park! Together we'll learn the basics of running, speed and pacing, proper stretches, and have fun as we run relays, play games, participate in races, and explore paths and loops within Central Park right outside of our school.

F Inline Skating (2-5)

Instructor: Kids Action Sports

Get your skates and gear on and join our fantastic coaches for after school in the park. Each week you will learn a new skill (from basic to advanced techniques), play some roller sports like hockey and skate soccer, and have FUN ON WHEELS. We will also occasionally bring music to learn to roller dance. Great class for beginners too!

F Basketball (K-5)

Instructors: Corbin's Crusaders

Use basic athletic skills: running, jumping, ball handling, passing and shooting. Emphasis will be on team play and good sportsmanship. Grouping will be by age, experience and skills. Develop ball handling, passing and dribbling. Focus on shooting skills: hand and body position and stance. Practice team strategy in games. Finish the week by playing the game you love!

F Crazy Inventors (Pre-K-2)

Instructors: Dazzling Discoveries

Think it, design it, build it with the team from Dazzling Discoveries! Kids who love to build become inventors as they explore and create using a wide variety of materials. Make your own games, toys, structures and inventions. Using STEM principles of science, engineering, technology and math, kids will make and take home all their special projects. All materials provided. Some projects may take more than one week to complete. New projects every term!

F Golf (Pre-K-1)

Instructor: NYC Golf & Sport

connects with children socially, culturally, and academically to create a more adventurous way to get the ball into the hole. Each class has a theme that captures student's imaginations. NYCGS instructs how to putt, chip, pitch, and full swing successfully. Stance, grip, aim, and posture are all presented in a child-friendly manner. Students advance into learning about the different kinds of golf clubs, the vocabulary of the game, rules, and scoring. Golf is heralded for its etiquette and sportsmanship and NYCGS honors that tradition in class. The most important thing is that your child associates the game with fun and that is NYCGS's specialty.

F Mohr's Central Park Explorers (K-3)

Instructors: Mohr's Explorers

Gear up for weekly EDventures in Central Park! Possibilities include an Explorers-only style of "fishing" (conditions permitting) and an original variety of awesome outdoor games & activities. This FUN program builds confidence while encouraging teamwork, creativity and open-ended education. We will be outdoors; please be prepared for all types of weather.

F NEW! Harry Potter (3-5) starts 10/17-12/5

Instructors: Eliana Rivera, Ty Yeung

Immerse yourself in the world of Harry Potter! We will continue to review the books and take on weekly challenges including potion making, care of magical creatures, butterbeer making and quidditch.

F NEW! (Algo) rhythmic Dance Class (Prek - 1)

Instructor: Zoe Berger

learn a new dance each week while practicing the basics of computer logic, sequence, and loops. In addition to dance classics like "The Hokey Pokey" and the "Tootie Tot" we will also play movement based logic games such as "Red Light, Green Light" and "Simon Says." Students can choreograph their own algorithms using movement cards and loops to create a dance sequence.
