

Murrieta Patio Covers

Murrieta Patio Covers – Custom Alumawood Shade Structures

Designed for Murrieta Homes

Murrieta residents enjoy long summers, bright skies, and numerous opportunities to spend time outdoors. But with all that sunshine comes the need for reliable shade. Alumawood patio covers offer an ideal solution—delivering comfort, style, and durability without the hassle of wood maintenance. Whether you're looking to create a quiet backyard escape or a shaded entertainment area, Alumawood is built for the way Murrieta lives.

What Is Alumawood?

The Best of Both Worlds

Alumawood is an engineered aluminum product that mimics the appearance of natural wood. It features realistic grain patterns, shadow lines, and color finishes that closely match the appearance of real timber. But unlike wood, it doesn't rot, warp, or crack over time. Each piece is crafted from high-grade aluminum and finished with a weather-resistant coating. This baked-on finish resists chipping, fading, and peeling—even in Murrieta's dry, sunny climate.

A Smart Upgrade from Traditional Wood

Wood requires constant attention. Staining. Sealing. Repairing. Alumawood doesn't. It stays

clean, sharp, and strong for decades. It's the low-maintenance choice that offers timeless beauty without constant upkeep. No termites. No dry rot. No surprises.

Alumawood Styles for Every Space

Solid Roof Patio Covers

Want full coverage? Solid Alumawood patio covers completely block the sun and protect from light rain. Ideal for outdoor kitchens, lounging areas, or dining spaces, they provide a true extension of your indoor living space.

Solid covers are also great for adding ceiling fans, recessed lights, or hanging plants. They create a more enclosed feel—perfect for hosting in any season.

Lattice-Top Patio Covers

Prefer partial shade? Lattice covers are made with spaced-out slats that let sunlight filter through while cutting down on direct heat. They work beautifully over walkways, poolside patios, or garden seating areas.

You can choose the spacing between slats to control how much light and shadow you want. Open and bright, or cool and cozy—your call.

Combination Covers

A popular choice for larger patios is the combo style. Solid over the seating, lattice over the greenery. It's the best of both: full coverage where you need it, light and air where you don't. Custom-built designs let you tailor the layout to your exact needs. It's a seamless way to get the look and function you want.

Benefits of Alumawood Patio Covers in Murrieta

Built to Withstand the Weather

Murrieta sees high UV exposure, occasional winds, and dry air. Alumawood handles all of it. It's non-combustible, resistant to corrosion, and doesn't expand or contract like wood.

Alumawood has a baked-on finish so it won't fade or peel over time. Rain or shine, it stays sharp.

Increases Usable Outdoor Space

Don't let the sun dictate your plans. A patio cover transforms hot, exposed patios into shaded, livable spaces. You'll get more use out of your backyard—day and night, summer and fall.

Energy Efficiency Boost

Shade matters. Blocking direct sunlight helps reduce indoor temperatures, especially on homes with patio doors or large rear-facing windows. Lower heat equals less AC use. That means lower bills.

Adds Long-Term Property Value

Alumawood structures add visual appeal and function to any backyard. They enhance curb appeal and create more outdoor "living space," which buyers love. It's a long-term investment with real return.

Murrieta Patio Cover Permits

Building Permits

In the City of Murrieta, most permanent patio covers require a building permit. This ensures compliance with local structural and safety standards.

Permit requirements vary depending on the size, location, and features, such as electrical wiring. Solid covers with fans or lighting will typically need full plan approval.

We help you every step of the way. From drawings to submission to final inspection, we make the process easy and stress-free.

HOA Approvals

If your home is part of an HOA, you may need architectural approval before starting. We're experienced in working with Murrieta HOAs and can assist with paperwork, drawings, and communication to avoid delays.

Why Murrieta Homeowners Trust They Build

Aluminum

Over 25 Years of Local Expertise

We've installed thousands of Alumawood patio covers across Murrieta and the Inland Empire. We know the climate, the codes, and the construction details that matter.

Fully Customized Designs

No two patios are the same. That's why every project we build is tailored, measured, designed, and constructed specifically for your home.

Quality-Driven Installation

Our team is licensed, insured, and experienced. We don't subcontract or cut corners. From post to rafter, we build to last.

Local, Friendly Service

We're not a national chain or a fly-by-night installer. We're a local business serving local families. You get honest advice, upfront pricing, and real accountability.
