

Ken Tamplin - How To Sing Better Than Anyone Else - Version 3.0

I've been working on this new course for 3 years

- In 2018 right after I launched the 2.0 version of my course... I began compiling a huge list of questions & difficulties students have while going through it. 3.0 answers all those questions
- 2.0 was the most comprehensive vocal course on the web. And 3.0 is worlds beyond THAT.
- **I have added a TON of content in this new version of my course.** So much so that a downloadable option is out of the question. There's just too much content. The first volume in 3.0 by itself... is bigger than the entire 2.0 course
- **If you sign up for 3.0, you will be set for life.** It contains every piece of knowledge, every exercise, every concept you need to know... to go from knowing NOTHING about singing, to fronting a successful band and touring the world. No joke.
- **Stream 3.0 on any device...** You can stream 3.0 on your computer, laptop, tablet, smartphone, and TV!
- **3.0 can be accessed through a mobile app...** which means all the content is easily accessible from anywhere with internet
- **In 3.0 I've included daily lesson plans** for those who want them. So you know exactly which videos to watch... exactly what exercises to work on... every day. Everything is mapped out for you.
- Because 3.0 is STREAMING ONLY... **if you sign up for 3.0 you will get access to any future updates I add to the course.** In other words I won't release a 4.0 or 5.0 version of my course... instead I'll just update 3.0
