The General Strike U.S. will now & forever demonstrate solidarity with those who have been silenced, turned away , dehumanized by the ones we call LEADERS , Our support and fellowship embodies those who've been and still are subjected to the violence this systematic global oppressor deems inferior or looked upon as meritless.

Our greatest weapon is our non compliance as a collective to their organized crime ring masquerading around as governments and monarchs.
The General Strike U.S. is an ally and will continue to support a free Palestine, a free Congo, a free Sudan, a free Haiti, a free Turtle Island and notably the liberation of humanity.

Our mission is to utilize our labor and non compliance as leverage to say " Enough Is Enough! "
Our mission is to co-create Interconnected systems state to state based on the current resources we all have as a collective. Such as (time banks, mutual aids, co-ops, community projects, intentional sustainable communities) To bring back "All Power To The People ". To ensure our basic needs are met before and after the strike.

Our mission is to collaborate with like-minded organizations and individuals to help liberate and decolonize the minds of the people as well as the land through liberation courses, political education, self defense classes along with other workshops like farming and gardening.
The General Strike U.S. is a decentralized coalition that can be one of many tools to ensure true liberation and guarantee a future where humanity can continue to evolve for the betterment of this planet.
With a clear mission and our core values we strive to reach 3.5% of the population to pledge and help make radical change.

The General Strike U.S. is what Jeremy Heimans would call "New Power" , where power is distributed to each individual. The GSUS knows that decentralization and diversity is strength and plan to use both not only to organize but empower others to take action and step into their power as well.

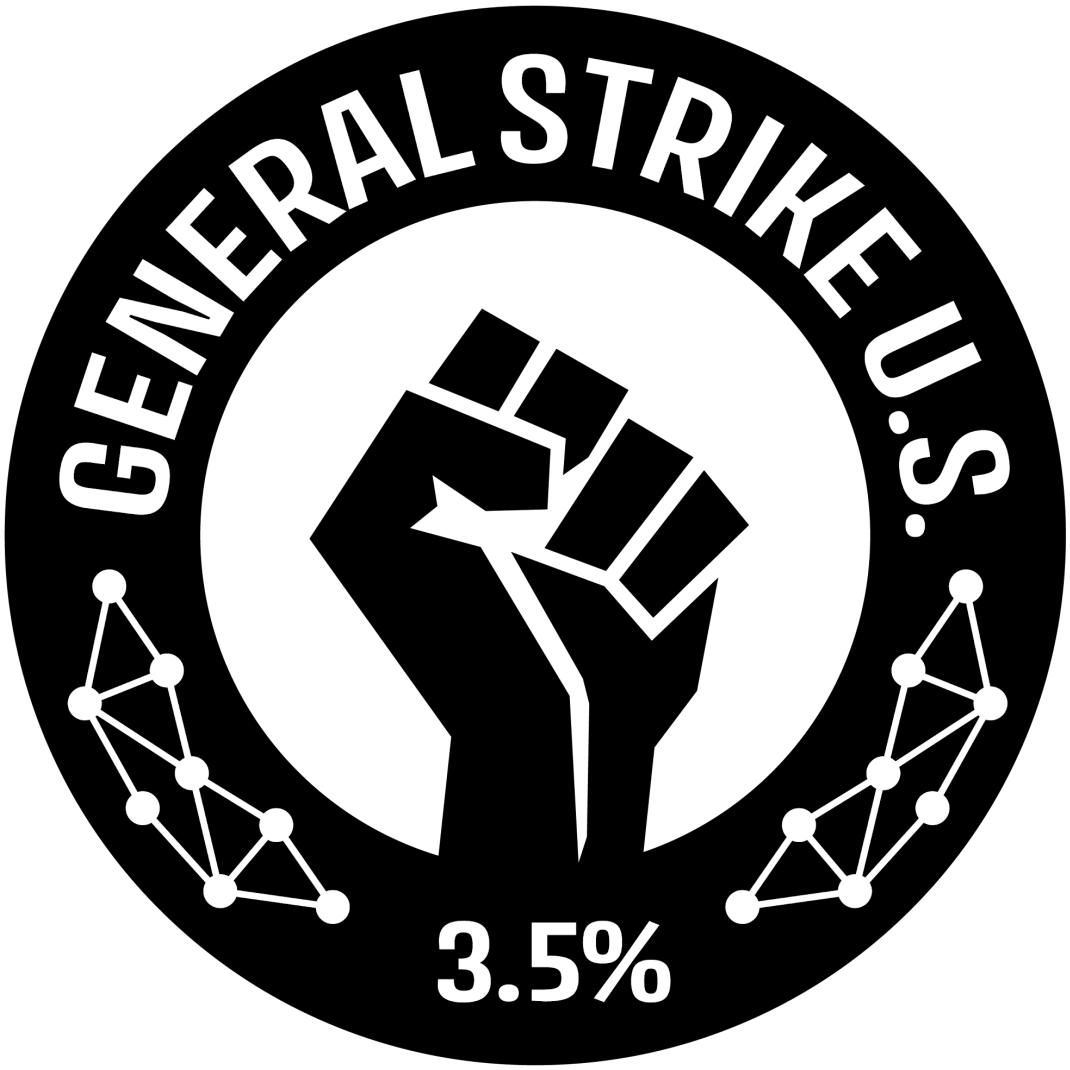

"Old Power Only Ask For Your Compliance New Power Requires Your Engagement, Ideas , Creativity , & Your Inner-Chi ."

"We've Voted, We've Protested, We've Marched For Generations It's Time For A General Strike"

"The Masters Tool's Will Never Dismantle The Masters House" – Audre Lorde

"We can disagree and still love each other unless your disagreement is rooted in my oppression and denial of my humanity and right to exist." – James Baldwin
