About me

Used to play as a flex player in my previous team. I feel very comfortable on duelist & flex. I have a lot of experience as a teamplayer and adapting my playstyle with the team’s style and also bringing mixed and various playstyles. Motivated and ready to share my experience and bring new things to the team. Also expecting to learn and become a better player. Confident and prepared to show the mechanical & individual overall level I have.

Vision

I'm looking for a long-term project where I can feel comfortable and confident with people who are trying to achieve & reach the same goals as me for Ascension 2023. My priority is at least a tier-2 team with big ambitions, structured work and a respectful & professional environment.

Looking for a new team where I can focus only on my work, improvements and taking the team to another level and achieving a lot together as a team.
