داهینه‌رانه و گشتی

/cinematicportrait — upload a photo, then use the code as the visual instruction.
/producthero — upload a product photo and request a premium hero composition.
/executiveoverview — ask for an executive presentation overview slide.
/studentstudyplan — provide subject, exam date, and available study hours.
/learnaconcept — replace the topic with the concept you want explained.
/marketingreel — provide the product/topic and ask for a Reel concept.

/blueprint - creates an engineering blueprint
/cutaway - creates a cutaway view showing internal components
/explodedview - creates an exploded assembly view with parts separated
/360view - creates a 360-degree product or object view
/technicaldrawing - creates a precise technical drawing
/schematic - creates a technical schematic or system diagram
/diagram - creates a clear explanatory diagram
/infographic - creates an informational infographic
/crosssection - creates a cross-sectional view of an object
/orthographic - creates front, side, top, and other orthographic views
/isometric - creates an isometric 3D technical view
/perspective - creates a realistic perspective view
/wireframe - creates a wireframe representation
/transparent - makes the object transparent to reveal internal structure

/xray - creates an X-ray-style view revealing internal components

/ghosted - makes exterior components semi-transparent while showing internals

/assembly - shows how multiple parts fit together

/disassembly - shows an object being taken apart

/partsdiagram - labels individual components and parts

/labelled - adds clean labels and callouts to components

/annotated - adds explanatory annotations and arrows

/dimensioned - adds measurements and dimensional callouts

/measurement - emphasizes accurate-looking measurements and scale

/patent - creates a vintage patent drawing style

/cad - creates a computer-aided-design style rendering

/3drender - creates a polished 3D-rendered image

/photorealistic - creates a highly realistic photographic appearance

/productphoto - creates a professional product photography image

/studiophoto - creates a controlled studio photography setup

/catalog - creates a clean commercial catalog image

/ebay - creates an e-commerce listing-style product image

/whitebackground - places the subject on a clean white background

/lifestyle - places the product into a realistic lifestyle environment

/hero - creates a dramatic hero image emphasizing the subject

/closeup - creates a detailed close-up view

/macro - creates an extreme close-up showing fine details

/lowangle - creates a dramatic low-angle perspective

/topdown - creates a directly overhead view

/frontview - creates a straight-on front view

/rearview - creates a straight-on rear view

/sideview - creates a straight-on side view

/detail - emphasizes a specific feature or component

/texture - emphasizes material and surface texture

/material - emphasizes the object's material characteristics

/metals - emphasizes realistic metallic surfaces

/glass - creates realistic transparent glass appearance

/plastic - emphasizes realistic plastic materials

/rust - adds realistic rust and corrosion

/worn - creates a naturally worn and used appearance

/vintage - creates an aged vintage appearance

/retro - creates a retro-era visual style

/minimalist - creates a clean, simple, uncluttered composition

/cinematic - creates a cinematic photographic appearance

/dramatic - adds dramatic lighting and atmosphere

/moody - creates a dark, atmospheric visual style

/blackandwhite - converts the visual style to black and white

/monochrome - creates a single-tone visual treatment

/lineart - creates clean line-art artwork

/sketch - creates a hand-drawn sketch appearance

/pencil - creates a pencil drawing appearance

/ink - creates an ink illustration appearance

/watercolor - creates a watercolor painting appearance

/oilpainting - creates an oil-painting appearance

/comic - creates a comic-book illustration style

/cartoon - creates a cartoon-style appearance

/anime - creates an anime-inspired visual style

/realistic - emphasizes realistic proportions, materials, and lighting

/stylized - creates a deliberately stylized artistic appearance

/diagrammatic - simplifies the subject into an instructional visual

/instructional - creates a step-by-step instructional image

/howto - illustrates a procedure or process step by step

/assemblyguide - creates an assembly-instruction illustration

/repairguide - illustrates a repair or maintenance procedure

/beforeafter - creates a before-and-after comparison

/comparison - places multiple versions or objects together for comparison

/edit - modifies the supplied image according to instructions

/remove - removes a specified object or element

/replace - replaces a specified object, area, or background

/restore - restores damaged, degraded, or old imagery

/cleanup - removes unwanted visual clutter and imperfections

/enhance - improves clarity, detail, lighting, and overall image quality

/upscale - increases apparent resolution and fine detail

/recolor - changes the color of a specified object or area

/background - changes or replaces the background

/relight - changes the lighting while preserving the subject

/retouch - performs subtle photographic corrections while preserving the subject

- **/whitebackground** - Places the subject on a clean, solid white background.
- **/lifestyle** - Places the product into a realistic, everyday living environment.
- **/hero** - Creates a dramatic hero shot that emphasizes the subject prominently.
- **/closeup** - Creates a detailed, close-up view of the subject.
- **/macro** - Creates an extreme close-up showing fine, microscopic details.
- **/lowangle** - Creates a dramatic low-angle perspective looking upward.
- **/topdown** - Creates a direct overhead view looking straight down.
- **/frontview** - Creates a straight-on front view.
- **/rearview** - Creates a straight-on rear view.
- **/sideview** - Creates a straight-on side view.
- **/detail** - Emphasizes a specific feature, part, or component.
- **/texture** - Emphasizes material surfaces and tactile textures.
- **/material** - Highlights the object's specific material characteristics.
- **/metals** - Emphasizes realistic, reflective metallic surfaces.
- **/glass** - Creates a realistic transparent glass appearance with light refraction.
- **/plastic** - Emphasizes realistic plastic materials and finishes.
- **/rust** - Adds realistic rust and corrosion effects.
- **/worn** - Creates a naturally worn, weathered, and used appearance.

- **/vintage** - Creates an aged, vintage aesthetic style.
- **/retro** - Creates a retro-era visual style and color palette.
- **/minimalist** - Creates a clean, simple, and uncluttered composition.
- **/cinematic** - Creates a cinematic, film-like photographic appearance.
- **/dramatic** - Adds dramatic lighting, shadows, and atmosphere.
- **/moody** - Creates a dark, atmospheric, and emotionally charged visual style.
- **/blackandwhite** - Converts the visual style to classic black and white.
- **/monochrome** - Creates a single-tone visual treatment using variations of one color.
- **/lineart** - Creates clean, outline-based line-art artwork.
- **/sketch** - Creates a hand-drawn pencil sketch appearance.

/pencil - Creates a detailed pencil drawing illustration.

/ink - Creates a sharp black ink illustration style.

/watercolor - Creates a soft, translucent watercolor painting appearance.

/oilpainting - Creates a rich, textured oil painting on canvas.

/comic - Applies a dynamic comic-book illustration style with bold outlines.

/cartoon - Creates a playful, stylized cartoon appearance.

/anime - Renders the subject in a specific anime or manga art style.

/realistic - Emphasizes highly accurate proportions, materials, and realistic lighting.

/stylized - Creates a deliberately stylized, non-photorealistic artistic appearance.

/diagrammatic - Simplifies the subject into a clear, instructional diagram-style visual.

/instructional - Creates a step-by-step image illustrating a procedure or process.

/howto - Illustrates a procedure or process in an easy-to-follow visual sequence.

/assemblyguide - Creates a technical illustration showing how parts fit together.

/repairguide - Illustrates a repair or maintenance procedure on an object.

/beforeafter - Creates a split-screen image comparing the subject before and after a change.
