Subject: Request For Legislative Support

Dear \_\_\_\_\_,

I'm a constituent of yours in \_\_\_\_\_. Right now a very important piece of legislation is working its way through our state assembly and senate. It's the California Climate Superfund.

Marshalling support from our political representatives at every level is very important. So I'm asking you to please go to this website:

<https://protectingamerica.net/ca/casuperfund/>

and go on the record as supporting this essential step in the right direction. Do it for your children and their children!

Thank you very much.
