University Legislation

A resolution condemning the atrocities in Israel and to stand with our students, faculty, and staff of Israeli and Jewish descent.

Whereas on Saturday, October 7, 2023, the terrorist group Hamas invaded the State of Israel.

Whereas Hamas proceeded to ruthlessly and savagely slaughter well over one thousand innocent Israeli civilians, including newborn infants. They have also brutally attacked and injured thousands of other Israeli citizens and are currently holding hundreds more innocent people hostage.

Whereas in addition to the previously listed atrocities, Hamas launched thousands of rockets into the State of Israel which has caused additional injuries, loss of life, and damage to homes and other critical infrastructure.

Be it resolved by the Student Government Association of Georgia Southern University:

1. Condemns any and every form of terrorism, as well as the violence against Israel which violates human decency and dignity.
2. Condemns any and all forms of antisemitism.
3. Stand with every student, faculty, and staff member who is of Israeli descent and/or a member of the Jewish community.
4. Also recognizes that many Palestinians do not view themselves as a part of nor support the terrorist group Hamas, and violence or any discrimination based on religion or nationality is inherently wrong.
5. Calls upon the Georgia Southern University Student Government Association to approve

and pass the aforementioned University Resolution.
