Name _____

The Human Body - Digestive System

Lesson 3: Parts of the Digestive System - Vocab Terms 3

Root meanings of words.

Words can come from different **root languages.** Explain the root meaning of **one term.**

Tip

- Try using a Google search asking “where does the word _____ come from?”
- Make sure to look down the list of sources to find one with a clear explanation. Don’t just use the first one made by AI without checking if there are other better ones first.

Example

The word **nutrient** comes from the Latin verb nūtrīre, meaning "feeding" or "providing nourishment". So, nutrient means feeding a living thing to grow and survive.

_____

_____

Extra activity**.**

Words can have different forms like nouns (names), verbs (actions) and adjectives (describe).

- A noun is a word you can put “a” or “an” in front of, or it is the name for something.
- *A verb is a word you can add “to” before it, or “ing” at the end.*
- *An adjective is a word you can sometimes add “ive” or “ly” to the end.*
- *Example: “a run”* is the name (noun) for the action of “running” (verb).

Write the **verb** (action) word for the noun (name word) <u>eats</u>**.**

Choose from easiest eating earth chewing

1. _____

There are three main verb tenses (past, present, and future). Each can have a continuous tense. ***Example*** <u>Past</u> “I was eating” (action in progress in a past time). <u>Present</u> “I am eating” (action happening now). <u>Future</u> “I will be eating” (action will be in progress at a future time).

Write past, present and future continuous tense for the verb “run”.
