The Philippines needs help from every other country on planet Earth. Donald Trump is coming to the Philippines to sign with Philippine President Bongbong Marcos the Pax Silica agreement, which will build semiconductor factories on indigenous peoples' land. As if that wasn't bad enough, the Philippine police have begun to crack down on protests in ways reminiscent of North Korea.

Recently, 300 people have been arrested at Sucat for protesting against Pax Silica. Those people have been kicked into a holding cell and not given food and water for more than 6 hours. Their Miranda rights have not been said and their lawyers and paralegals have been blocked from seeing them. Other protestors continue to demand for their release.

Right now every vehicle passing through UP Diliman is being searched, and every passenger background-checked. Right now it is no different from the days of Ferdinand Marcos. We're just missing Martial Law 2, and this time there will be no Cory Aquino to save us.

As much as I want to say "Junk Pax Silica" we all know our screams will fall on deaf ears. So I'm going to scream something different.

DO NOT INTERACT WITH PHILIPPINE OFFICIALS!!!!!

SANCTION THE PHILIPPINES!!!!!

REPORT THE PHILIPPINES TO THE ICC!!!!!

YOUR TAXPAYER MONEY GOES INTO OUR OFFICIALS' POCKETS!!!!!

Citizens of ASEAN members and the US please tell all your government officials not to interact with the Philippines and withdraw from the ASEAN-US summit. If money is the only way to communicate with those pigs then we must starve them to death instead of screaming into deaf ears.
