I was stuck in the hamster wheel of trying to figure out stuff and failing. Sometimes I felt like I should just give up.

And within 10 days, I made my first money online which was a payment of 500\$.

After teaching thousands of men, I have realized they all make the same mistake as I did.

But don't worry I have made sure you don't make the same mistake and save yourself months of trial and error.

I am attaching a video in which I explain this simple mindset mistake and how to fix it.
