[Em] [B]

My oh my, had you not heard of it?

[C] [G] [C] [B]

an invertebrate like me makes up the vast majority

[Pre Chorus 1]

[C] [G]

Of all the living organisms here on planet earth

[C] [B][D][B]

97% to be precise

[C] [G]

And I know you think your spinal column's so evolved

[C] [D] [B]

But w/o one I can shimmy, strut and sway so nice

[C] [G] [C] [B]

Me, hey I'm no amateur

[C] [G] [C] [B]

We jellyfish contract and swish these viscous bods

[Pre Chorus 2]

[C] [G]

Invertebrates are many different shapes and sizes

[C] [B][D][B]

From tiny nearly invisible flies

[C] [G]

Ranging all the way up to the giant squid

[C] [B]

With its jumbo, soccer ball-sized eyes

(Soccer ball-sized eyes)

And the tentacles that tantalize

[C] [G]

But we rock and wiggle, jive and jiggle

[C] [B] {Vamp B}

Super fluidly

No spine? No problem!

We flow from top to bottom

To the left, to the right

Twist with delight

Tentacle, and the other

Now shake your hood (x2)

Now take break, I'm so hot

wiggle everything you got

wiggle everything you got

I said wiggle everything you got

She said wiggle everything you got

Wiggle everything you got!
