

Slate Canyon 6th Ward Temple and Family History Plan

The ward Temple and Family History committee assists ward members to gather Israel on both sides of the veil by strengthening each member's testimony of Jesus Christ through temple attendance and family history research for their own family members. The committee will provide opportunities for individuals and families to experience temple and family history. They will encourage members to share their experiences in the ward Spiritual Experiences journal.

Additional focus on the following areas:

- Primary children will be taught the importance of the temple and prepared to receive their Limited Use Recommends. The primary will hold its annual Temple and Priesthood Preparation Meeting to assist in this effort.
- The YW/YM will have opportunities for regular temple trips to perform baptisms and do at least one combined activity annually focused on Temple and Family History.
- Adults seeking to receive their endowment will be provided a Ward Temple Preparation class in anticipation of going to the temple.
