

Citizen Science Video Reflection

You will be watching a video about [Citizen Science](#). The website, [SciStarter.org](#), has additional information about citizen science and crowdsourcing. After watching the video and reading the info on SciStarter, you should be able to answer the following questions...

1. What is citizen science?
2. What are some of the advantages of citizen science?
3. What are some potential downsides of citizen science?
4. Describe one of the citizen science studies that was described in the video and explain the impact that the study has made.
