

hello and thank you for downloading my build! i'm very sorry that i can't include all cc in the build, i don't want to encounter any problems with popular cc creators.

therefore some cc is included in the download, other cc is not. creators with a tou that state not to include cc have been excluded from the download.

**if you want your cc removed from the download file please contact me, i likely couldn't find a tou or you didn't correctly name the file if it's included.**

amber house pack (i have excluded this pack as it is 1.54 gb on it's own, and is quite large. download seems to be confusing for people so please thoroughly read the instructions. It can only be installed as a MERGED SET, hence why i've excluded it from the dl).
