

Akshoba, Pranav and Vishruth of Class 8C from our school have proudly secured first place in the Junior Make-a-Thon (JMT) 2026 held at IIT Madras. The Junior Make-a-Thon is a nationwide innovation competition for school students conducted as part of Shaastra, the institute's annual technical festival, where participants conceptualize and develop practical solutions under expert mentorship and through hands-on workshops. Open to Grades 6–8, the competition requires teams to submit ideas, design prototypes, and present their projects, with top performers earning the opportunity to compete on campus during the festival.
