About the Workshop

Every April 26, World Intellectual Property Day is celebrated to learn about the role that intellectual property (IP) rights play in encouraging innovation and creativity. Every business starts with an idea. Each of the millions of the small and medium-sized enterprises (SMEs) that operate across the globe every day started with an idea that took shape in someone's mind and made its way to market. With the view to create awareness on the significance of IP, IQAC proposes a one day workshop on World Intellectual Property Day keeping the benefit of teachers and researchers in the mind for their overall excellence in the concerned fields. The objective of this workshop will be to impart greater awareness about the issue of Intellectual Property Right which has gained a special importance for all the domains of socio-economic development, and to cover various aspects of IPR like Patents, Copyrights and Trademarks etc. The workshop will give an enlightened exposure to the teachers and research scholars for acquiring expertise in the concerned field. The technical sessions will be led by the speakers having thorough knowledge in the subject who have been practicing in the field for many years.
