

Google Meet - Join a Meet

1. Open Google Classroom through the app launcher or by going to www.classroom.google.com
2. On the Stream tab, you will see a Meet link. Click the link.

3. Click “allow” for your mic and video.

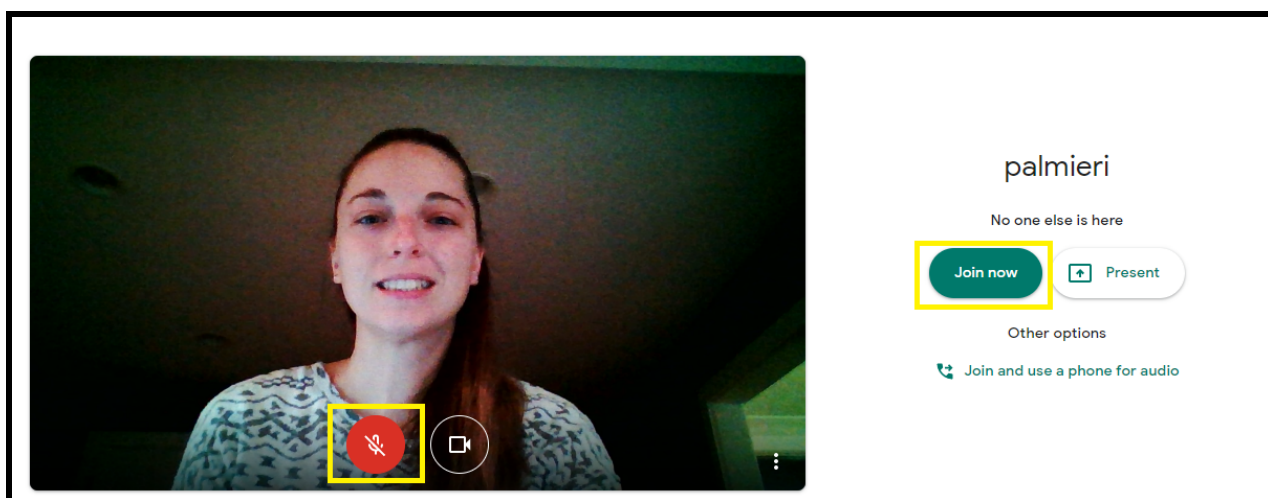

4. Prepare to enter the meet.

It is good practice to enter with your Mic muted so you do not interrupt any ongoing conversation/lesson/direction.

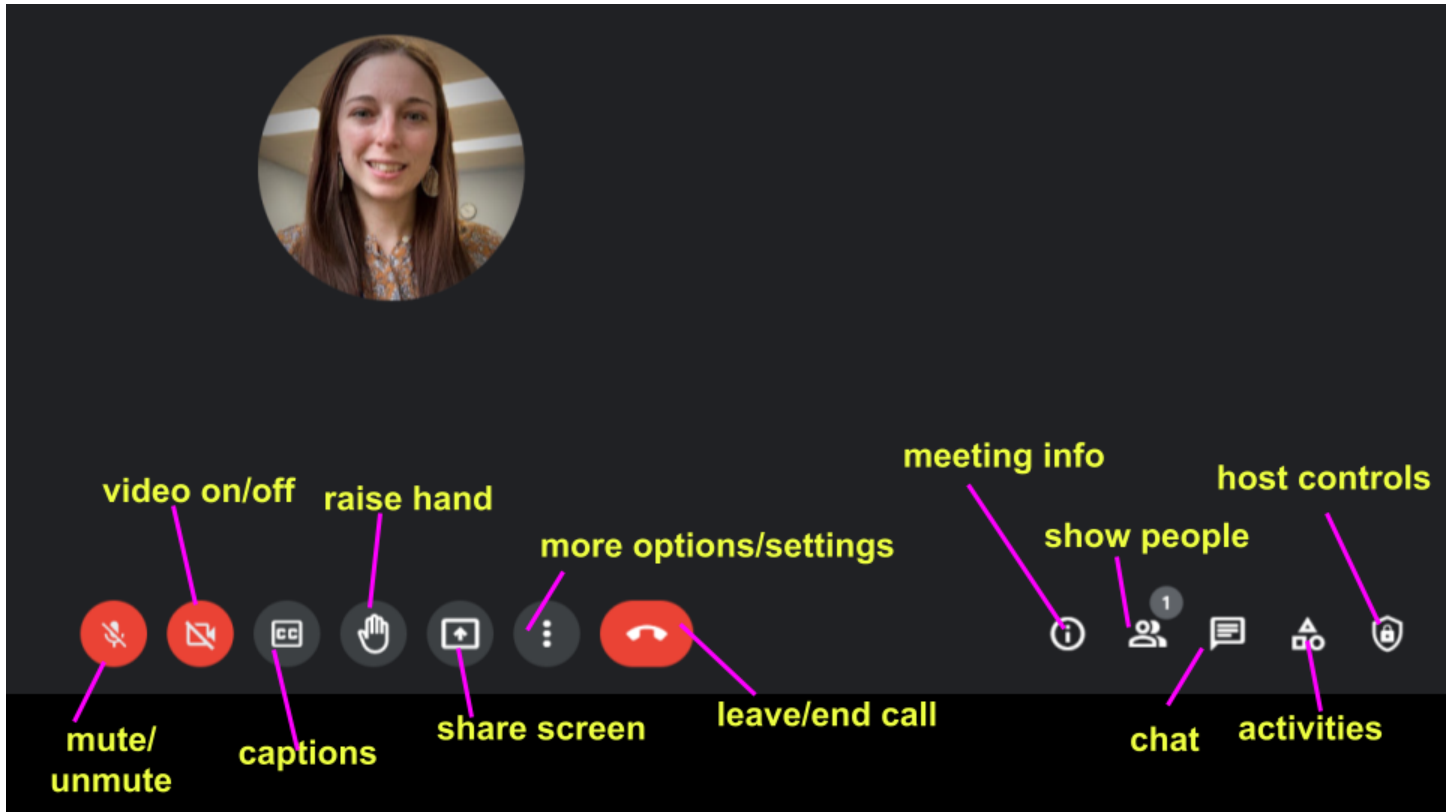

To mute your microphone, click the microphone icons so it turns red.

Click Join now

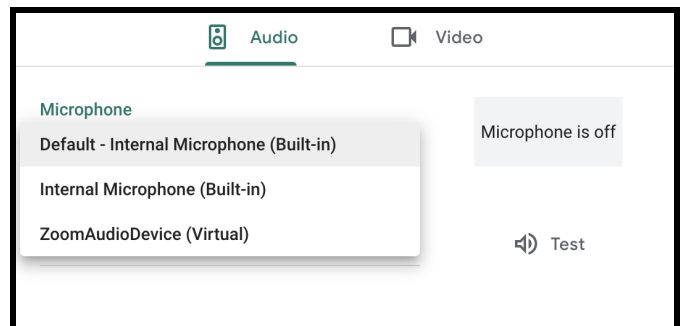

5. Participate in the meeting.

During the meeting, you can mute/unmute and turn your camera on or off. Turn on captions to make spoken words appear on the screen.

Troubleshooting:

1. If you can't see/hear people or they cannot hear you, make sure you are not muted.
2. If you're not muted, check your audio and video settings. Go to the three dots (more options) and select Settings.
3. Check that the correct microphone and camera are selected from the drop down menu.
4. If everything seems right, leave the Meet and rejoin.
