Read Me: Paper (Long and Short/Project) Uploads

Please submit your final paper as a **MS Word file** using this Google Form.

Please make sure that you have used this template for your final formatting. It is a read-only document so you need to make a copy if you want to work in Google Docs and then download as a Word file to submit through the form. Double check that all captions, citations and works cited are properly included. Please include your finalized abstract at the beginning of the paper.

You will be able to include additional authors in the Google Form for listing in the conference program and proceedings.

Contact ncbds40-tooling@ncsu.edu with any questions or problems using this form.
