

Global Citizens

1. Have you ever lived abroad for an extended period of time? If yes, what was the experience like? If not, would you ever consider working or studying in a foreign country?
2. Have you travelled to any foreign countries? If yes, which ones did you go to, and what was your impression of them? If not, which foreign countries would you like to travel to?
3. How do each of us act as global citizens regardless of whether or not we ever leave our own country?
4. Think about the food you buy at the supermarket. Which food is produced in your own country? Which food is imported from abroad?
5. Think about the music you listen to. Are any foreign songs popular in your country right now?
6. Think about the movies you watch. Which foreign films are popular in your country?
7. Think about the TV series you watch. Are there any foreign TV programs that are popular in your country?
8. Think about the books you've read. Which foreign authors have you enjoyed reading? Did you read them in their original language, or in translation?
9. Think about the Internet. Do you regularly watch any Youtubers who live in foreign countries?
10. Think about the clothes you wear. Where were they manufactured? Where did the fashion style come from?
