“Debora is like a magnet.

Once you get sucked into her world and hear her speak, you never wanna get out.

I've had a couple of sessions with her.

She helped me breathe life into my free masterclass and into my email sequence. And that's exactly what her superpower is - she adds magnetic power into stuff.

Her advice is super on point and she gives tons of value in the time she spends with you. All her tips were very easy to implement and provided immediate result.

Kay K.

"Debora is an incredible teacher and is brilliant at making you think strategically and on the go! I wanted to create some content which would harmonise 3 different aspects of my business and the variety of services that I offer. During the first part of the workshop Debora asked me some very targeted questions which helped me to see my business and my services in a different light, so that we could come up with many aspects, similarities and correlations among the different services which I provide"
Anna F.
